PUMPS

THE 1925 edition of our annual Catalogue of Seeds, Agricultural Implements and Poultry Supplies affords us an opportunity to thank our many friends for the confidence and patronage, covering a period of 90 years. Such loyalty is truly an inspiration to set a high mark for our standard and continue the work to make our best better. It is our purpose to add to the wealth of the community—not to detract. Seeds are cheap or expensive, as measured by their ability to produce profitable crops, and not per cost of pound or bushel. Our efficient laboratory service enables us to determine their viability; and field inspection of the growing crops minimizes the possibility for error or disappointment.

We Make a Specialty of GRASS SEED MIXTURES, Including
Central Park Lawn; Extra Mixture Lawn; Shady Lawn
ALSO FOR HAY AND PASTURE

OUR POULTRY SUPPLIES

We are printing the annual list in conjunction with the Seed Catalogue, and offer a comprehensive introductory to this special feature.

The name "MUZZY" applied to our special formulas represents the superlative. In feed it signifies purity, sound, clean, sweet grain. We do not employ adulterants or by-products, screenings, salvaged stock, or musty and damaged matter. QUALITY and the BEST spells it another way.

SPECIAL NOTICE TO MARKET GARDENERS

We sell to Market Gardeners, Truckers and Farmers' Clubs at special wholesale rates, and solicit your inquiries for close prices on round lots.

Giant Washington Asparagus Roots

In reference to the Washington Family of Asparagus:—We predict that in the next five years, 95 per cent. of all Asparagus roots planted in the U. S. will be WASHINGTON.

While we have sold Washington Asparagus roots for the past two or three years, we would not recommend this variety to the trade, until we were sure that it was a variety worth our recommendation.

Two-Year-Old Roots—Price, 50, \$2.00; 100, \$3.50; 1,000, \$25.00

British Lion Peas

British Lion can be seeded early; has about the same vine as Gradus —The pod is larger and darker than Gradus. This is a truly magnificent Pea. It pods profusely and they are the most attractive pods of any Pea in this class. Price, pkg., 15c; 1 lb., 60c.

Novelties

Golden Rod Sweet Corn

DELICIOUS GOLDEN GRAINS
OF RICH FLAVOR

GOLDEN ROD

121. It is worthy of note that the varieties of Sweet Corn possessing the finest flavor are those that differ radically either in form or color from the ordinary sorts. Thus, Black Mexican and the yellow varieties show a strongly marked divergence from type in the matter of color, and Country Gentleman an equally marked divergence in form, and these varieties excel all others in sweetness and flavor.

When the existing yellow or golden colored varieties were introduced, it was hard to convince the public of their value; but as everyone who tasted them became enthusiastic in publishing their praise, they soon came into favor.

Golden Rod is the result of a cross between Stowell's Evergreen and Golden Bantam, and proves to be a happy and complete blending of each sort. The ear is none too small, nor is it large and bulky, but just large enough for ordinary consumption. The plants are 6 to 7 feet high, strong, profusely leaved, and bear on each stalk, at a convenient height, two ears lavishly packed with delicious golden grains of appetizing flavor. Price, pkg., 15c; 1 lb., 50c; 5 lbs., \$1.75; 10 lbs., \$3.50.

Plant For Early Sweet Corn---METROPOLITAN

116. To get the first crop of really good Sweet Corn, grow METROPOLITAN. There has never been any one variety of Corn besides Metropolitan that combined the essential features of earliness, productiveness and good flavor in a satisfactory degree. In these important characteristics, Metropolitan certainly outclasses any other variety. It is very little later than Cory, which has been the most popular early sort.

The plant is distinct, being very strong in stalk, growing 5 1-2 feet in height. The leaves are numerous, narrow and very dark green in color. The ears are from 8 to 9 inches long and all set low. They are 10 to 12-rowed, well filled to the tip with large, deep grains, which are very tender. It is not merely sweet, but possesses that exquisite richness so well known in the larger and later sorts. The best, the largest, the sweetest and the biggest yielder of all Early Sweet Corn. Price, pkg., 15c; 1 lb., 50c; 5 lbs., \$1.75; 10 lbs., \$3.50.

Collection of Vegetable Seeds

Only the choicest sorts are put into the assortments, and they are picked out so as to give a continuous supply of vegetables from your garden all season.

The amount charged for these collections is considerably less than you would pay for the individual seeds, on account of the fact that we are able to put them up during the slack winter months.

COLLECTION for small Gardens \$1.00 (Including Postage in the U. S.)

MUZZY BROTHERS'

ANNUAL

Seed Catalogue

FOR 1925

-Prices Subject to Change.

It is our endeavor to maintain the prices quoted in this Catalogue throughout the season, but owing to the present very unsettled conditions they are subject to change without notice.

Muzzy Brothers give no warranty, expressed or implied, as to the description, quality, productiveness or any other matter of any seeds, bulbs or plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned, not tested seed so marked to comply with Chapter 228, Laws of N. J., 1916.

ARTICHOKE

German, Artichocke; French, Artichaut; Spanish, Albachofa.

	Pkt.	Oz.
French Globe	\$0.10	\$1.25

The Seeds should be sown early in the spring, in drills an inch and a half deep, and one foot apart. The next spring transplant to permanent beds, in rows or hills three feet apart and two feet between the plants. Plant in a deep rich, moist loam, and the plants should be protected in winter by a covering of leaves or coarse manure. A bed will continue bearing for several years.

Jerusalem Artichoke, Tubers	25 cents each
-----------------------------------	---------------

ASPARAGUS

German, Spargel; French, Asperge; Spanish, Esparrago.

	Pkt. 5 cents		
	Per oz.	1/4 lb.	Per lb.

Sow the seeds early in spring, in drills 15 inches apart, and about a dozen to the foot in the drill; keep the soil mellow and free from weeds during the summer, and in the succeeding spring transplant to permanent beds which should be done in the following manner as described by a cultivator of Oyster Bay Asparagus.

Plant on sandy soil. To grow Asparagus in perfection, the soil need not necessarily be richer than it must be to produce a good crop of corn. Some experiments have shown that by heavily manuring the crop cannot be made permanently greater than by moderate dressings. It is not desirable to plant them out very early; more plants will fail to grow than when the planting is deferred until the soil is dry and warm.

In planting for private use; set out in rows two feet apart, and allow twelve inches in the row. Set the plants at least six inches below the surface. For market on a large scale set four feet apart one way and two the other, which will allow the use of a horse and cultivator to keep the weeds under.

BEANS

10 cents Pkt.

German, Gartenbohne; French, Fève de Marais; Spanish, Hava.
English or Broad.

	1 lb.	2 lb.
Broad Windsor	\$0.50	\$0.95
Sword Lond Pod.....	.60	1.10

This class is very hardy and should be planted as soon as the soil is in good state in the spring. Plant four inches apart, and two inches deep in drills four feet apart. To insure well filled pods, pinch off the tops as the lower pods begin to set.

Bountiful, Extra Early. Very prolific and long bearing. Flat green pods, tender and stringless, 1 lb., 40c; 2 lb., 70c; 10 lb., 3.00.

Valentine Black, long round, green, solid pod, very early. 1 lb. 35c, 2 lb. 65c, 10 lb. \$2.50.

Valentine, Giant Stringless, about seven days later than extra Early Valentine. Slightly curved pod, brittle and stringless; a strong grower and good yielder. 1 lb. 35c; 2 lb. 65c; 10 lb. \$2.50.

Valentine, Early. Productive, tender and of excellent flavor. 1 lb., 35c; 2 lb., 60; 10 lb., 2.50.

Horticultural Dwarf, Late. Productive, broad, flat stringless pods. 1 lb. 35c; 2 lb. 65c; 10 lb. \$2.50.

Muzzy's Stringless Green Pod, the best stringless bean grown. Ten days to two weeks earlier than the valentine; pods full and fleshy, extremely crisp and absolutely stringless. Very productive. 1 lb. 35c; 2 lb. 65c; 10 lb. \$2.25.

Long Yellow Six-Weeks, early, excellent variety for general crop. 1 lb. 30c; 2 lb. 60c; 10 lb. \$2.25.

Refugee or Thousand to One. (Late variety.) The pods are round and full, stringless and of fine quality. 1 lb. 35c; 2 lb. 65c; 10 lb. \$2.25.

DWARF LIMA AND DWARF WHITE BEANS

Burpee's Improved Bush Lima. Beans are large as Large Lima, stout growth, branches vigorously, bearing 50 to 200 large pods well filled with very large beans. 1 lb. 45c; 2 lb. 85c; 10 lb. 3.75.

Fordhook Bush Beans. 1 lb., 55c; 2 lb., 1.00; 10 lb., 3.75.

White Marrowfat, grown for sale in the dry state. 1 lb. 25c; 2 lb. 50c; 10 lb. \$2.00.

Long White Kidney, excellent as a shell bean, green or ripe. 1 lb. 25c; 2 lb. 50c; 10 lb. \$2.00.

DWARF WAX VARIETIES

Sure Crop Stringless Wax. 1 lb., 40c; 2 lb., 75c; 10 lb., 3.00.

Refugee Wax, Stringless, good for early or late. Immense yielder. 1 lb. 35c; 2 lb. 65c; 5 lb. \$1.75.

Golden Eyed Wax, very early, prolific, free from rust. 1 lb. 35c; 2 lb. 65c; 10 lb. \$2.50.

Round Pod Kidney Wax, same as Wardell's, only round pods. 1 lb. 35c; 2 lb. 65c; 10 lb. \$2.50.

Wardell's Kidney Wax, extra early, long flat pods, very productive. 1 lb. 35c; 2 lb. 65c; 10 lb. \$2.50.

BEANS—Dwarf Wax Varieties, Continued

	1 lb.	2 lb.	10 lb.
Curries Rust Proof , very early and prolific. The pods are long, full, stringless; of very fine quality35	.65	\$2.50
Davis' White Wax , beans pure white; pods yellow, flat, tender, rich40	.70	\$2.50
Golden Wax . This valuable variety is about ten days earlier than the black wax pods, large, long semi-round, brittle, stringless .. Blossoming time sends up a tendril a foot longer than vein which drops off.	.40	.70	\$2.50
Hodson Wax , very large, tender, pods stringless, very productive40	.70	\$2.50

BEANS, Pole or Running Varieties

Challenger Lima . Potato variety, five and six in a pod40	.75	\$3.25
King of Garden Lima . Vigorous in growth and immensely productive, pods large, numerous and well filled and beans of an enormous size. Generally grown for main crop40	.75	\$3.25
New Early Jersey . Very early40	.70	\$2.65
Large White Lima . A greatly esteemed variety40	.75	\$3.25
Kentucky Wonder, or Homestead Extra Early . Pods long, tender and good flavor, very productive40	.75	\$3.25
Dutch Case Knife . A very productive variety, one of the earliest40	.70	\$2.50
Horticultural or Speckled Cranberry . A popular variety for private use, equally serviceable in the green state or when shelled40	.70	\$2.50
Scarlet Runner . Beautiful scarlet flowers; for ornamental and table use40	.80	\$3.50
Early Golden Cluster . Bright yellow pods, stringless, in clusters..	.40	.70	\$2.50
Yard Long, French . Pods sometimes grow from 2 to 3 ft. long, are very slender like a pipe stem; should be grown on pea bush85		

Sow Bush sorts in drills about two feet apart, and drop the beans about three inches apart in the drill, cover two inches or less for a succession, sow at intervals of two weeks. Lima beans should not be planted until settled weather; make rich hills, four feet apart each way set a pole eight or ten feet high in each; press the beans into the soil eye down, six or eight to each pole, and when they are well up, thin out to four.

A quart of Limas is sufficient for 75 to 80 hills, and a quart of Bush Beans will sow a row 100 feet long.

BEETS

Pkt. 5 cents

German, Runkelrub; French, Bourrache;
Spanish, Remolacha.

Detroit Dark Red. A splendid beet for market or home use, of a deep color, tender and of delicate flavor.

Oz., 15c; ¼ lb., 40c; 1 lb., \$1.25

Dark Red Egyptian Crosby's. The earliest beet in cultivation, color deep crimson; of excellent quality.

Oz., 15c; ¼ lb., 40c; 1 lb., \$1.25

DETROIT DARK RED BEET

BEETS—Continued

	Per oz.	¼ lb.	Per lb.
Extra Early Eclipse. Very early, good size.....	.15	.35	\$1.00
Early Flat Bassano. Chiefly valuable for its earliness15	.40	\$1.25
Early Blood Turnip. Standard early sort, an excellent15	.35	\$1.00
Edmands. Market garden variety, uniform shape, dark15	.40	\$1.25
Dewey's Blood Turnip. Of fine form and flavor15	.35	\$1.00
Long Smooth Blood Red. An excellent late variety15	.40	\$1.25
Swiss Chard. Used for its leaves, which are cooked as Spinach15	.35	\$1.25
Swiss Chard Lucullus

page 28 }

MANGEL-WURZEL AND SUGAR

Varieties used for feeding stock. Sow 6 lbs. per acre.

Special Price in Quantities

	1 oz.	¼ lb.	1 lb.
Mammoth Red Mangel-Wurzel. Producing roots of mammoth size, very regular, and with a small top.....	.10	.25	.75
Yellow Ovid Mangel-Wurzel. Very productive.....	.10	.20	.70
Long Yellow Mangel-Wurzel. Good for general crop10	.20	.65
Golden Tankard Mangel-Wurzel. A new and very valuable variety of fine form and sweet flavor, bright yellow in color, when cut it shows interior ring, similar to most varieties of garden beet....	.10	.25	.75
White Silesian Sugar Beet. Extensively grown for feeding stock and manufacture of sugar10	.25	.75
Wilmorin's Improved Sugar Beet. An improved variety10	.20	.70
Lane's Improved Sugar Beet. Improved variety of the French Sugar Beet, obtained by careful selection in this country10	.25	.75

A rich, deep open soil is the best suited to the culture of Beets. Fresh manure is undesirable, but land that has been well manured the previous year is highly suitable. For an early supply sow in the spring as soon as the ground becomes fit to work, in drills about one foot apart and two inches deep. For main crop sow the first week in May, and for winter use sow in June. When the plants have obtained three or four leaves, thin out, so that they may stand eight or nine inches apart. Keep free from weeds by hand weeding and hoeing. Those intended for winter use may be taken up in October, and stored in dry sand in the cellar or outhouse. Before storing, leaves and fibers must be cut off, but care must be taken not to bruise the main root.

BORAGE

10 cents Pkt.

German, Borritsch; French, Bourrache; Spanish, Berraja.

	Per oz.	¼ lb.	1 lb.
Borage, used as a pot herb; also as a salad, or can be boiled, and also for garnishing, but chiefly required for claret cups and other cooling drinks. Bees are very partial to the flower20	.80	\$3.00

BROCCOLI

10 cents. Pkt.

German, Spragel Kohl; French, Chou Brocoli; Spanish, Broculi.

	Per oz.	¼ lb.
Early White, heads medium size, compact, creamy white color, most certain to head	\$0.50	\$1.50
Purple Cape, differing from the preceding color, greenish purple	\$0.30	\$1.00
White Cape	\$0.50	\$1.50
Mammoth White	\$0.50	\$1.50

A favorite European vegetable, nearly allied to the Cauliflower, but more hardy and surer to head; the seeds should be sown in this district in the early part of May and transplanted in June; farther south the sowing should be delayed until June or July; and the transplanting accordingly from August to October. In parts of the country where the thermometer does not fall below 20 or 30 degrees, Broccoli may be had in perfection from November until March. It succeeds best in a moist and rather cool atmosphere.

BRUSSELS SPROUTS

10 cents Pkt.

German, Sprossen-Kohl; French, Chou de Bruxelles; Spanish, Breza de Brussels.

Dalkeith Dwarf Improved, a variety producing compact sprouts of excellent quality. Pkt. 10c; Oz., 35c; $\frac{1}{4}$ lb., 85c.

A tender, delicious vegetable. The plant grows two or three feet high, and produces from the sides of the stalks numerous little sprouts, one or two inches in diameter, resembling cabbage. The leaves which look like a Savoy should be broken down in the fall, to give the little cabbages room to grow. They are very tender and sweet after early frosts. Sow early in hot-beds, or in seed-beds in May transplant and cultivate the cabbage.

CABBAGE

10 cents Package, except quoted otherwise.

German, Kopfkohl; French, Chou; Spanish, Berza de Pepollo.

1 oz. $\frac{1}{4}$ lb. 1 lb.

COPENHAGEN MARKET

Copenhagen Market.

The finest, large, round-headed, early Cabbage; very solid and of fine quality; short-stemmed.

.50 1.50 5.00

Enkhuizen Glory.

Large, early, white, solid, ball shaped heads

All Seasons, fine variety, for second early or late growing, good size

.25 .85 3.00

Early Jersey Wakefield. The leading variety for market, very early, of medium size, good quality, sure to head

.25 .85 3.00

Charleston Wakefield. Large strain of the above

.25 .85 3.00

Autumn King. We believe this to be

.25 .75 2.25

one of the finest strains of Cabbage ever offered. It produces regular, even heads of enormous size

Early Flat Dutch. This is one of the best early cabbages in cultivation

.25 .75 2.50

Early Summer. A valuable early sort resembling the Early Flat Dutch

.25 .75 2.50

Early Winnigstadt. Heads large, one of the best for general use

.25 .75 2.50

Henderson's Succession. A second early or late variety, a sure header; seeds sown in March produce large heads in June

.25 .75 2.50

Muzzy Extra Amagar Danish Ball-Head. Large, round, solid, sweet and crisp, sure header

.25 .85 3.00

Large Late Drumhead. An excellent fall and winter variety, grows to a large size

.25 .75 2.50

Larfie Late Flat Dutch. The most popular variety for late cultivation

.25 .75 2.50

Danish Red Stone Head. Used almost exclusively for pickling

.30 1.00 3.50

Drumhead Savoy (American). The largest heading sort, of excellent flavor

.30 1.00 3.50

Drumhead Savoy (Ulm). Very early, popular sort

.25 .80 2.75

Chinese (Pe Tsai)

.25 .85 3.00

For very early use plant in the autumn from 10th to 25th September, in a seed bed, and protect in cold frames during the winter, being careful to set them down to the first leaf. Transplant in the following spring, as the soil will admit. For autumn and winter use, plant in seed-bed in May and early part of June, and when six inches high transplant into rich soil, two feet apart each way for the early varieties, and three by two and a half feet for the large winter varieties. To secure the best results, the soil should not be too dry, but should be thoroughly enriched, and the crop should be hoed at least once in ten days. Sow in hot bed early in spring, seed of the early kind for a second crop; also the late varieties for winter use.

CARROT

All 5 cents Package

Except Quoted Otherwise.

German, Mochern; French, Carotte.

The Carrot, like other root crops, delights in a sandy loam, deeply tilled. It should never be sown on newly manured ground as forked roots are sure to be the result. It is best to sow on ground that has been well manured the previous year for some other crop such as Celery, Potatoes, Onions or Peas, but avoid such crop as Cabbage and Turnips, or any of the tap rooted sections. For early or main crops sow the latter part of April; for later crops, they may be sown any time until the beginning of June. Sow in rows about 15 inches apart and half an inch deep, thinning out to three or four inches between the plants.

Early French Forcing. The earliest variety, valuable for forcing; root small and of fine flavor, oz., 15c; ¼ lb., 35c; 1 lb., \$1.25.

Early Scarlet Horn. Old and favorite sort, much esteemed for early summer, oz., 15c; ¼ lb., 35c; 1 lb., \$1.25.

Half Long Danvers. A variety intermediate in size and period of maturity between the preceding and the Dond Orange, oz., 15c ¼ lb., 35c; 1 lb., \$1.25.

Half Long Stump Rooted Chantenay. Like Nantes, broader shoulder, oz., 15c; ¼ lb., 35c; 1 lb., \$1.25.

Half Long Rubicon. Finest Carrot in existence. Oz. 20c; ¼ lb. 60c; 1 lb. \$2.00.

Half Long Stump Guarande or Oxheart......

Half Long Stump Nantes

Long Orange Improved. Roots of large size, equally adapted for garden or farm culture

Large White Belgian. Grown almost exclusively for stock

EARLY SNOW BALL CAULIFLOWER

CAULIFLOWER

German, Blumen-Kohl; French, Chou-fleur; Spanish, Coliflor.

Extra Early Paris. This is one of the earliest and best varieties, heads large, white and compact, of fine quality. Pkg. 10c; oz., 80c; ¼-lb., \$2.50.

Large Early Snowball. Best for forcing under glass or open ground. Pkg. 25c; ¼-oz., 75c; ½-oz., \$1.35; 1-oz., \$2.50; ¼ lb., \$8.50.

Early Dwarf Erfurt. Best for forcing. Pkt., 25c; ¼-oz., 70c; ½-oz., \$1.25; 1 oz., \$2.25.

Early London. Pkt., 15c; 1-oz., \$1.00; ¼ lb., \$3.00.

Denmark, Special Large Late. Very fine variety, large white, compact heads, the space necessary between plants is greater than other varieties. Pkt. 25c; ¼ oz. 1.25; ½ oz. 2.00; 1 oz. 3.50.

CAULIFLOWER—Continued

Cauliflower delights in rich, moist soil and in dry seasons should be abundantly watered. The seeds may be sown in September and wintered over in the same manner as described for early cabbage. Where this is not practicable, it may be had nearly as well by sowing the seed in the hot-bed in January or February and transplanting the plants at two or three inches apart in boxes, or in the soil of another hot-bed, until such time as they are safe to be planted in the open ground, which in this latitude, is usually from the 15th of March to the 10th of April. If properly hardened off, they are seldom injured by being planted out too early.

CELERY

10 cents Package, except quoted otherwise.

German, Celeri; French, Celeri; Spanish, Apih.

	Oz.	¼ lb.	lb.
Golden Self-Blanching. American Strain. Very choice. Standard early variety Pkt. 10 cents	.40	1.15	4.00
Giant Pascal. Stalks very large, thick and crisp.25	.80	3.00

White Plume. Requires very little banking.30	.80	3.00
Dwarf White, Soup Celery. An imported variety of fine flavor; soup greens20	.60	2.00
Boston Market. An excellent dwarf, growing white variety20	.65	2.25
Rose Ribbed Self Blanching—Rose variety. Nutty flavor.50	1.50	5.00
Celery Seed for Flavoring.10	.20	.65

CELERIAC

10 cents Pkt.

TURNIP ROOTED CELERY

German, Knob-Celeri;
French, Celeri Rave.

Giant Prague. For soups, etc. When sliced and cooked makes good winter salad. Oz., 25c; ¼ lb., 75c; lb., 2.50.

The seeds may be sown in the open ground in April, as soon as the ground can be nicely worked. Sow about half an inch deep, and be careful to firmly press the soil over the seed; this should be done by treading over the rows with the feet after sowing; this prevents the air drying up the seed, which thereby loses its vitality and fails to germinate. Many valuable crops are annually lost by inattention to this important particular. After the seed is up, keep carefully clear of weeds until the time of planting June and July; the crops may be shorn off once or twice before planting; this makes them "stocky" and they suffer less in being transplanted. After the ground has been well prepared, plant in rows from three to four feet apart, according to the variety, setting the plants about six inches apart and pressing the soil firmly about the roots.

CHERVIL

Package 10 Cents

German, Bisen'auch; French, Cerfeuil;
Spanish, Cerafolio.

Curled Per. oz., .25

The young leaves are used in soups and salads. Sow thinly in May, in drills of an inch deep, one foot apart.

CELERY

CHICORY

Pkt. 10 Cents.

German, Chicorie; French, Chicoree Saur; Spanish, Escarola.

Per oz. ¼ lb.

Common. This variety produces the "Barbe de Capucin," a salad much used in France. Sown in June the roots are transplanted in autumn into sand in a cellar; the shoots of which will come up soon from the "Barbe de Capucin"35	1.25
Large Rooted. Used to mix with or a substitute for coffee. Cultivation same as the carrot.....	.20	.50

Water Cress	Pkt. 10c .45	1.50

Are excellent for small salads; the leaves, while young have a warm, pungent taste. They can be used alone or mixed with Lettuce, Mustard, or other salad plants. Sow thickly at frequent intervals for succession, and treat in the same manner as mustard.

CORN SALAD OR FETTICUS

Pkt. 5 Cents.

German, Ackersalat; French, Mache; Spanish, Macha Valeneanilla.

Large Seeded	Per oz. ¼-lb.	1b.
	.15 .45	1.50

Corn Salad, Fetticus or Lambs Lettuce is used to a considerable extent as a salad. It is sown on the first opening of spring in rows one foot apart and is fit for use in six to eight weeks from the time of sowing. If wanted to come out early in spring, it is sown in September, cover up with straw or hay as soon as Cold weather sets in and is wintered over the same way as Spinach.

WHITLOOF CHICORY

CORN---Sweet

Pkt. 10 Cents.

German, Zuker, Welshkorn; French, Mais de sucre; Spanish, Maiz de Azucar.

Long Green. A very excellent variety; a good bearer; about a foot in length, rather pointed at both ends; dark green, firm and crisp15	.40	1.25
Green Prolific Pickling. Very prolific; and said by those who have tested it equally desirable as a market Cucumber... ..	.15	.40	1.25
West Indian Gherkin or Burr. A very small oval shaped prickly variety. It is grown exclusively for pickling, and should always be picked when young and tender20	.60	2.00

Cucumbers succeed best in warm, moist, rich loamy ground. They should not be planted in the open air until there is a prospect of settled warm weather. Plant in hills about four feet apart each way. The hills should be previously prepared by mixing thoroughly with the soil in each a shovelful of well rotted manure. When all danger from insects is past, thin out the plants, leaving three or four of the strongest to each hill. **English Frame Cucumber**—Per pkt., 25c. **Improved Sion** and **True, Swan Neck, Blue Gown.**

These varieties are for growing in hot-beds, or in hot-houses, particularly constructed for forcing, so that a supply can be furnished during the winter months, at which time the prices are very remunerative. Sow seeds in November, December and January, according to the time they are wanted for market.

DANDELION

15 Cents Pkt.

German, Pardelblume; French, Pissenlit; Spanish Armagon.

	Per oz.	¼ lb.	1 lb.
Best French45	\$1.50	\$5.00

The Dandelion is much used for spring salads and resembles Endive. Sow the seed in May or June in drills half an inch deep and 12 inches apart. The plants will be ready for use the following spring.

ENDIVE.

EGG PLANT

All 10 Cents Pkt.

German, Eier Pflanz; French, Aubergine; Spanish, Bereinfena.
1 oz. ¼ lb.

New York Improved. Superior market variety of large size and fine variety.....	.50	1.50
Black Beauty Tendage. Earlier than New York. Improved and as large; purplish black.....	.50	1.50
Black Pekin. A fine variety, bearing large round, deep, purple fruits, fine, grand and of superior quality45	1.35

The Egg Plant is a tender vegetable, and must not be planted out until the weather is warm and settled. Sow early in spring in hot-beds, or if they are not convenient, sufficient plants may be raised for a small garden by sowing a few seeds in common flower pots or in boxes in the house. Plant out early in June from two to three feet apart.

Moss Curled Early Summer.

Used for salads as winter varieties

Witloff or French

Endive. New 1 oz., .25; ¼ lb .75; 1 lb., 2.00.

Endive is one of the best salads for fall and winter use. Sow for an early supply about the middle of April. As it is used mostly in the fall months, the main sowings are made in June and July, from which plantations are formed at one foot apart each way in August and September. It requires no special soil or manure, and after planting, is kept clear of weeds until the plant has attained its full size, when the process of blanching begins. This is affected by covering up the plants as they grow, with slats or boards, which serves the purpose of excluding the air and light.

NEW YORK EGG PLANT.

KALE

Pkt. 5 Cents, except where noted.

German, Blatter-Kohl; French, Chou Vert; Spanish, Breton.

Oz. $\frac{1}{4}$ lb. 1lb.

Siberian German Green or "Sproute." This variety is extensively used for early greens for which it is sown in the fall in rows one foot apart and treated in the same manner as Spinach; it is ready for use in early spring. Sowing can also be made in spring.....15 .35 1.10

Dwarf Green Curled Scotch. Beautifully fringed dwarf growing kind, with bright green leaves, 10c pkt... .20 .50 1.50

Tall Green Curled Scotch. Tall growing, very hardy variety, leaves a bright green, beautiful curled 10c pkt.20 .50 1.50

Kale may be grown in almost any soil. but the richer it is the more abundant the product. Sow early in the spring, in prepared beds, covering the seeds thinly and evenly; transplant in June and treat in the same manner as for cabbage. Of all the cabbage tribe this is the most tender and delicate and would be much more extensively grown than it is, if its excellent qualities were generally known. The varieties are all extremely hardy, and are best when touched by frost.

KALE

KOHL-RABI

KOHL-RABI

Pkt. 10 Cents.

German, Kohl-Rabi; French, Chou Rave; Spanish, Colinabo.

Per oz. $\frac{1}{4}$ lb. 1lb.

Early White Vienna. Flesh white and tender; best market sort; good for table use20 .75 2.25

Early Purple Vienna. Differing from the above in color, which is of a bluish purple20 .75 2.25

Large White or Green. Large ball, not so fine, but more productive... .25 .80 3.00

Khl-Rabi or Turnip stemmed cabbage, is a vegetable that is not so much cultivated as it deserves to be. The stem above the ground swells into a bulb, somewhat resembling a turnip: this again is covered with leaves. The edible part is the bulb, which is dressed and served like turnip, is very delicate and tender when young. It is very hardy, withstands severe drought, and is a good keeper. Cultivate the same as cabbage, but in hoeing be careful not to throw dirt into the heart of the plant, or the bulb cannot form.

LEEK

Pkt. 5 Cents.

German, Lauch; French, Poireau;
Spanish, Puerro.

Large American Flag.	oz.	¼ lb.	lb.
The kind mostly grown for market25	.75	2.50

Large Careten. A large growing French varie- ty of excellent quality..	.25	.75	2.50
---	-----	-----	------

Large Rouen. Very large and fine25	.75	2.50
--	-----	-----	------

The Leek is very hardy and easily cultivated; it succeeds best in a light, but well enriched soil. Sow as early in the spring as practical, in drills one inch deep and one foot apart. When six or eight inches high they may be transplanted in rows ten inches apart each way, as deep as possible; that the neck, being covered, may be blanched. If fine leeks are desired, the ground can hardly be made too rich.

LEEK.

LETTUCE

Pkt. 5 Cents.

German, Laitick; French, Laitue; Spanish, Lechuga.

For early crop, the seed may be sown in the open ground in September, and transplanted to cold-frames as soon as large enough to handle. In dry, sheltered spots, by covering up with leaves late in the season. Lettuce plants may be saved over Winter without glass covering. The plants for setting out in Spring are also sown in coldframes in February, and in hotbeds in March, and by careful covering up at night make plants to set out in April.

ROMAINE OR COS VARIETIES

Bath Cos. Pale green tinged with brown. Early.30	.80	2.50
Trianon Cos. The best of the Cos variety.....	.30	.80	2.50
White Paris Cos (Romaine). Sow early; tie up to blanch30	.80	2.50

Lettuce is the most popular of all salads. Boiled, is quite equal to Spinach; and it is also sometimes used in soups. It is easy of cultivation, but likes a good rich soil. For early use, sow Simpson and Tennis Ball under glass in February and March and transplant as soon as the ground can be worked. Later sowings may be made in the open ground for successions as long as the weather permits; thin out well or the plants will be weak, and set in rows two feet apart and eight inches between the plants. The best early plants are obtained by sowing in the open ground in September, and transplanting to cold frames the latter part of October, being wintered over in the same manner as early Cabbage. Lettuce requires good ground and abundant moisture.

MAY KING LETTUCE

LETTUCE—Continued

German, Laitick; French, Laitue; Spanish, Lechuga.

	Per oz.	¼-lb.	lb.
New York or Wonderful —Round Solid Head. Heat resisting. Grows larger than Iceberg and matures 10 days earlier	\$0.35	\$1.00	\$3.50

Jennie Lind. A very early kind, of small size, but delicious flavor15	.40	1.40
Cassaba. Good water melon, sweet melting—must be fully ripe. Pkt. 10c35	1.25	4.00
Rocky Ford. Very sweet; spicy flavored, small and oblong, most popular sort20	.50	1.75

HONEY DEW MELON.

Melons thrive best in a moderately enriched live soil; the hills should be six feet apart each way. Previous to planting incorporate well with the soil in each hill a couple of shovelfuls of thoroughly rotted manure; plant twelve or fifteen seeds in each hill in May, and when well up, thin out three or four of the most promising. Pinch off the leading shoots as the growth becomes too luxuriant, and if the fruit sets too numerous thin out when young, which will increase the size of those remaining, and cause them to ripen quicker.

MELON, WATER

Package 5 Cents

German, Wassermelone; French, Melon d'Eau; Spanish, Zaudia.

	Per oz.	½ lb.	lb.
Tom Watson. Long and 8 to 10-in. diameter. Thin rind, crisp flesh, fine flavor15	.35	1.00
Kolk's Gem. Nearly round, dark green			
Seminole. A new early variety. Long striped sort

Per oz.	¼-lb.	1 lb.
.15	.35	1.00

Plant in hills directed for Muskmelons, giving them more room, as their vines extend much farther. If they are wanted of a large size, three or four melons to each plant will be sufficient, and when only one is allowed to grow from each plant they will grow to an immense size.

MUSHROOMS

German, Chimpignoubut; French, Champignon; Spanish, Hongo
Imported English Spawn Per brick, 25c; 10 bricks, \$2.50; 20 bricks, \$4.75
American Spawn Bricks Per brick, 35c; 10 bricks, \$2.75; 20 bricks, \$5.00
Mushrooms should be grown either in a building especially erected for the purpose or some shed, stable or cellar, where the temperature of from 40 to 60 degrees can be kept up in winter. To every barrow load of fresh horse droppings add about the same weight of loam or soil of any kind that has not been manured. Turn the heap every day, so that it is not allowed to heat violently, until you have quantity enough to form a bed of dimensions required. Be careful that your heap is under cover, so that it cannot possibly get wet. The most convenient size is from three to four feet long and eight inches deep.

MUSHROOMS.

Prepare the mixture of loam and manure, making the bed in layers and pounding down each with the back of a spade. Leave this to heat through for a few days, and as soon as the heat subsides to 90 degrees, make holes in the bed about a foot apart each way into which put pieces of spawn two or three inches in diameter; fill up the holes with the compact and at the expiration of a week or ten days the spawn will have thoroughly diffused itself through the bed. Now spread a layer of fresh soil

over the heap to the depth of two inches, firm it down moderately and cover with three or four inches of hay or straw. Examine the bed often to see that it does not get dry. When water is given it should be at a temperature of about 100 degrees.

MUSTARD

5 Cents Pkt.

German, Snef; French, Moutarde; Spanish, Mostaga.

	Per oz.	¼-lb.	1 lb.
White London. Best for salads	\$0.10	\$0.25	\$0.75
Black. Used for cooking and salad.....	.10	.30	1.00

Mustard in the green state is a refreshing salad, mixed with Cress, Lettuce, or other salad plants. It is necessary to make frequent sowing of it, as it should be cut and used in a very young state, even before the first rough leaf appears. The seed should be sown thickly in light soil the surface of which should be made very smooth. The seed should be pressed into the soil with the back of a clean spade.

NASTURTIUM

Package 5 Cents

German, Nastrutian; French, Capucine; Spanish, Maranuela.

	Per oz	¼ lb.	lb.
Tall Scarlet	\$0.20		
Tall Yellow	\$0.20		
Tall Nasturtium, Mixed.....	.15	.40	1.50
Dwarf Nasturtium, Mixed15	.45	1.50

Cultivate both for use and ornament; the green seed pods preserved in vinegar make an excellent pickle. The young leaves are also useful in salads. Its scarlet and orange-colored flowers which appear freely all summer, add a charm to the garden.

ONION

Package 10 Cents

German, Zweibel; French, Oignon; Spanish, Cebolia.

Yellow Globe Prize Taker, 90 days.

	Per oz.	¼ lb.	lb.
Australian Brown, mild flavor, heavy golden early25	.75	2.00
Early Red Flat. About ten days earlier than the Large Red, and not quite so large.....	.25	.75	2.00

White Portugal or Silver Skin. A handsome onion of mild flavor; extensively grown for pickling..	.35	1.00	3.50
Southport White Globe. Form nearly ovoid symmetrical, keeps well, is an excellent variety.....	.35	1.00	3.50
Southport Yellow Globe. As above except color25	.75	2.00
White Flat Bermuda. Very early	.30	.90	2.50

Prizetaker. Grows uniform in shape; is of immense size, measuring from 12 to 16 inches in circumference, while under special cultivation specimen bulbs have been raised to weigh from 2 to 3 pounds each; its pure white flesh is fine-grained, mild and delicate in flavor

.25 .75 2.00

The onion thrives best in a rather strong, deep, rich loamy soil, and unlike most vegetables succeeds well when cultivated on the same ground for successive years. The ground should be deeply trenched and manured the previous autumn, and laid up in ridges during the winter to soften. As early in the spring as the ground is in working order, commence operations by leveling the ground with a rake, and tread firmly; sow thinly in drills about a quarter of an inch deep and one foot apart; cover with fine soil and press down with the back of a spade or a light roller. When the young plants are strong enough, thin gradually so that they stand three or four inches apart.

OKRA OR GUMBO

Package 5 Cents

German, Essbarer Safran; French, Gomo; Spanish, Quibombo.

**LONG GREEN OKRA**

German, Petersilie; French, Persil; Spanish, Perjil.

Per oz. ¼ lb. 1b.

Improved Dwarf White. Long slender pods, very productive, only 14 inches high	\$0.15	\$0.35	\$1.00
Dwarf Green. Early and productive15	.35	1.00
Long Green. Fine long pods, very good15	.35	1.00

The pods in a young state are used in soups, sauces and stews, and are very wholesome and nutritious. It is the easiest culture and grows freely, bearing abundantly when grown in ordinary garden soil. It is sown at the usual time of all tender vegetables in drills two inches deep, setting the plants from two to three feet apart.

PARSNIPS

Package 5 Cents

German, Pastinake; French, Panais; Spanish, Chirivia

Per oz. ¼ lb. 1b.

Guernsey or Cup. Leading variety	\$0.15	\$0.40	\$1.25
Long Smooth or Hollow Crown.			
Long roots15	.40	1.25
Early Round15	.40	1.25

They succeed best in a deep rich soil that has been well manured the previous season, as manure freshly applied tends to the production of forked and ill-shaped roots. Sow the seed early in spring in drills eighteen inches apart in the garden, and three feet apart in the field, thin the plants to six inches in the drill.

PARSLEY

Package 5 Cents

Per oz. ¼ lb. 1b.

Extra Double Curled. A fine dwarf variety excellent for garnishing	\$0.15	\$0.40	\$1.25
Moss Curled. The most beautiful form of parsley, resembling crested fern or moss in its growth	\$0.15	\$0.40	\$1.25
Plain Leaves. Hardier than the curled variety15	.40	1.25
Hamburg, or Rooted. Edible roots15	.40	1.25

Should be sown very early in the spring in beds or in lines, and the seeds which are somewhat slow to vegetate should be previously soaked 24 hours in warm water. The soil should be kept free from weeds, which should be extracted by the hand, so as to avoid disturbance of the seed when about to germinate. As soon as the plants are large enough they should be thinned out so as to stand five or six inches apart.

PEAS

Package 10 Cents

German, Erbsen; French, Pois; Spanish Guisantes.

1 lb. 2 lb. 10 lb.

Extra Early Varieties			
*World's Record. Among early main-crop Peas of medium height, Gradus, or Prosperity, takes first place; happily named, indeed, on account of its high yield and superb flavor. In World's Record these points are more than maintained; the yield is as high and the quality, if anything, is enhanced. The great point in favor of the new sort is its earliness, the period from seed to maturity being less by a week than the standard Gradus45	.85	3.00
Laxtonian. Dwarf early wrinkled. Very prolific, large pods, height 1½ ft.50	.90	3.25
Gradus or Prosperity. Earliest wrinkled Pea grown. Can be sown early as the round sorts. Large peas and pods, splendid flavor. Requires no sticks, reaching only 36 inches in ordinary good soil. Height, 3 feet....	.45	.85	3.00
Thomas Laxton. A cross between Gradus and one of the extra early sorts. Ripens within a day or two of the earliest round varieties; very productive. The pods are large and contain 7 or 8 large, wrinkled Peas of the finest flavor45	.85	3.00

Alaska. Very early and retain their color well, height 2½ feet	.35	.60	2.30
First and Best. One of the best extra early Peas. An improved strain of the Extra Early Market, height 2½ feet.....	.35	.60	2.30
Little Gem. A dwarf green wrinkled Market, very prolific, of superior flavor, and a first early, 1½ feet40	.70	2.65
Premium Gem. A fine flavored dwarf, wrinkled variety; good cropper and fine quality. Height, 18 inches40	.70	2.65

SECOND EARLY VARIETIES.

Everbearing. Good size pea, long pods, height 2½ feet....	.40	.70	2.65
McLean's Advancer... Early green wrinkled varieties, delicious flavor, height 2½ feet..	.40	.70	2.65
Pride of the Market. Very large pods, green peas, sow thin, height 2 feet35	.60	2.35
Abundance, 18 inches high, 6 to 8 peas in pod, large and wrinkled40	.70	2.65
Dwarf Telephone. Same quality and productiveness as Telephone excepting the vines grow 2 feet high, pods are large and filled with immense peas of excellent flavor and sweet45	.85	3.00

GENERAL CROP.

Champion of England. A popular wrinkled variety of delicious flavor, profuse bearer. Peas are very large, tender, height 5 feet40	.70	2.65
Telephone. This is the best pea for general crop, both for home and market use. Immediately productive and of finest quality. Vines very strong, averaging 18 to 20 large pods per stalk, 4 feet.40	.70	2.65
Mammoth Gray Sugar. Edible pods, a fine flavored variety; can be used in green state like string beans. Height 5 feet.85	3.00
Dwarf, Sugar. Edible pods.....	.40	.70	2.65

Peas come earlier to maturity in light soil. For general crop a deep rich loam, or strong loam inclining to clay is best. For early crops decomposed leaves or leaf mould should be used, or if the soil is very poor, strong manure may be employed. For general crop a good dressing should be applied, and for the dwarf growing kinds the soil can hardly be too rich. When grown as a market crop, peas are not staked, but sown in single rows, two or three inches deep, two or three feet apart according to the variety. When grown in small quantities for private use

PEAS—Continued.

they are sown in double rows six or eight inches apart, and the rows three feet apart, the tall varieties staked up by brush. For an early crop, sow as soon as the ground can be worked, and make repeated sowings every two weeks for succession. A quart is sufficient for a row of about eighty feet.

PEPPER

Package 10 Cents

German, Pfeffer; French. Piment; Spanish, Pimento.

PEPPERS.

	Per oz.
Ruby King. Very large; bright red.....	\$0.50
Sweet Spanish. One of the largest. Best for salads, mild50
Large Bell or Bull Nose. An early variety of mild flavor50
Sweet Mountain or Mammoth. Of large size, best for mangoes50
Chinese Giant. Double the size of Ruby King. This is the largest and finest mild	
Red Pepper. Flesh is thick and unusually mild. Productive bearer75
Long Red Cayenne. Used for Pepper sauces; very pungent50
Chili. Very piquant and prolific, fruit conical, bright scarlet50
Golden Dawn Mango. This is a remarkably prolific Pepper of the Bell class of a mag-	
nificent golden color50
Hot Mango Pepper. Very Hot, best for Pepper Sauce and Pickling50

The Pepper or Capsicum is valuable for its seasoning qualities, as well as for pickling. Sow early in heat and transplant when the weather is warm and settled, or sow in warm situation in the garden about the middle of May. Plants should be set a foot and a half apart.

POTATOES

German, Kartoffel; French. Pomme de Terre; Spanish, Petata.

Houlton Stirling (see novelties).	
Houlton Hebron. White skin, the most popular variety in cultivation	
Houlton Rose. The standard variety.....	
Houlton Early Queen. Early and productive.....	
Houlton Green Mountain. Late variety, good keeper, white and mealy	
Houlton Irish Cobbler. Very early, round white.....	
Houlton Boree. Extra early production, white flesh.....	
Houlton Bagley	
Houlton Delaware	

Prices on
application.

POTATOES—Continued

HOULTON MAINE POTATOES.

PUMPKIN

Package 5 Cents

German, Kuerbis; French, Courge;
Spanish, Calabaz a Tetanera.

Long Scarlet. One of the leading market kinds.15	.35	1.00
Rose China Winter. Flesh firm and piquant; excellent for winter use20	.50	1.50
White Summer Turnip. A summer variety of mild flavor15	.45	1.15
Yellow Summer Turnip. Grows to a large size.15	.40	1.25

Black Spanish Winter. Long, one of the hardiest and best for winter use25	.50	1.50
Half Long Black Spanish15	.45	1.15
Black Spanish Winter. Round.20	.50	1.50
White Strasburg. Very large. German sort15	.35	1.00
White Vienna or Lady Finger. Crisp and tender in summer,15	.35	1.00
Icicle. Long, pure white, suitable for forcing15	.35	1.00

There are two classes of Radishes, those for Spring and Summer use, which are small and arrive quickly at maturity, and with proper care can be kept all winter. The summer radishes should be used while young and tender; if allowed to grow too long they become tough and stringy; they thrive

best in high rich soil. For a successful supply, sow from the middle of March until September, at intervals of two or three weeks. For an early supply they may be sown on a mild hotbed in February. The winter varieties may be sown from the latter part of July to the middle of September.

SORREL

10 Cents Package

Used for Salad—Has an acid flavor—or it may be cooked same as spinach.	oz.	¼-lb.
Large French25	.75

Summer Crookneck. Early, productive and of good quality.....	.20	.45	1.40
Boston Marrow. A very valuable medium early variety, an excellent keeper and of superior quality.....	.15	.45	1.50
Hubbard. The best Winter Squash, fine grained, dry, keeps well and is of excellent flavor20	.50	1.50
Mammoth Chili. Grows to a large size, often weighing two hundred pounds. Excellent for stock20	.75	2.00
Vegetable Marrow. A favorite English sort, skin greenish yellow, flesh white, soft and rich flavor20	.50	1.75
Italian (Cocozella di Napoli) grows 20 inches long with diameter of 3 or 4 in. Green or Marbled Yellow.25	.75	2.00

SALSIFY

SQUASH—Continued.

Squashes are divided into two classes, Summer and Winter. The Summer varieties come into use about midsummer, and are eaten when the rind and flesh are young and tender. The Winter varieties are left on the vines until they are thoroughly ripe, gathered in the Fall, and stored away for Winter use. If well ripened and kept in a good cellar, they can be preserved until May. Prepare hill for the seeds by incorporating two or three shovelfuls of well rotted manure with the soil for each hill. For the bush varieties, from three to four feet each way, and for the running sorts from six to eight feet. Eight or ten seeds should be sown to each hill, thinning out after they have attained their rough leaves, leaving three or four of the strongest plants.

SWISS CHARD OR SILVER BEET

5 Cents Package

SWISS CHARD.

Silver Leaf. This is a Beet producing leaves only of a quality superior to those of the ordinary Beet, and excellent greens. Cultivate about the same as spinach, by sowing in early spring in drills about a foot apart. Oz., 15c; $\frac{1}{4}$ lb. 35c; 1 lb. \$1.25.

Giant Lucullus. Large, crinkled leaves; tender and of fine flavor; dark green; pure white ribs. Oz., 15c; $\frac{1}{4}$ lb., 35c; 1 lb., \$1.25.

TOBACCO

Package 10 Cents

Connecticut Seed Leaf. This variety is best adapted to the climate of the Northern and Middle States. Oz., 50c; $\frac{1}{4}$ lb., \$1.75.

Havana. Imported Seed, Vuelto de Abbajo. Per oz. 75c; $\frac{1}{4}$ -lb. \$2.75.

TOMATO

10 Cents Package

German, Liebesapfel; French, Tomato; Spanish Tomata.

	Per oz.	$\frac{1}{4}$ -lb.

Pomeranium White Globe. Very fine, white Globe variety, round and thick ..	.15	.25	.75
Seven Top. Tops used for Greens.....	.20	.35	1.00

TURNIPS—Continued

RUTA BAGAS

AM. IMP. PURPLE TOP RUTA
BAGA TURNIP

American Improved Purple Top. The leading variety, of fine quality, valuable both for the table and for feeding stock.

oz.	¼-lb.	lb.
.15	.30	.85

Carter's Imperial Royal Swede. An English variety, highly recommended as producing enormous crops.

.15	.35	.85
-----	-----	-----

White or Sweet German. A large solid variety.

.15	.25	.85
-----	-----	-----

Laing's Improved, Globe-Shaped, with small top and tap root.

.15	.25	.85
-----	-----	-----

For spring crop commence sowing early varieties as soon as the ground can be worked, in drills fourteen inches apart; thin out the plants to five or six inches apart. Keep clear from weeds, and when the bottoms begin to enlarge, brush away the earth from about the roots the depth of an inch or more and give them a light dressing, of wood ashes. This is the surest mode of obtaining fair and smooth Spring Turnips in old gardens where they are almost certain to grow wormy if the earth is allowed to remain in contact with the roots. It is important to get them started very early so that they may have time to grow a sufficient size before very hot weather, when they will soon become tough and strong. For the Fall and main crops, sow from the middle of July to the last of August in drills as directed for the Spring sowing. In the field, Turnips are more generally sown broadcast though much larger crops are obtained by drill culture.

SWEET POT AND MEDICAL HERB SEEDS

Herbs are valuable for culinary and medicinal purposes, but they do not always receive the attention which they deserve. They are easily grown, and when preserved by drying are ready for use at any season of the year. Sow in Spring as soon as the weather is warm, and thin out as the plants grow up.

	Per oz.	Pkg.
Anise (<i>Pimpinella anisum</i>), an annual, cultivated for its seeds and its leaves, which are used for garnishing and for seasoning.....	\$0.35	\$0.10
Balm (<i>Melissa officinalis</i>), a hardy perennial, used for making balm tea and balm wine35	.10
Basil, Sweet (<i>Ocimum basilicum</i>). This is a tender annual, cultivated for its leaves, which are much used for flavoring soups and sauces25	.10
Bene (<i>Sesamum orientale</i>)35	.10

OUR SEEDS ARE GROWN IN THE SECTION OF THE WORLD BEST ADAPTED TO THEIR SPECIAL REQUIREMENTS. WE CONTRACT ONLY WITH THE GROWERS. -:- -:-

Lawns like this can be produced by sowing Muzzy's Lawn Grass Seed.

ABOUT LAWNS AND LAWN GRASS SEED

FORMATION OF LAWNS FROM SEED.

There is nothing more attractive than a well kept lawn.

Many things are to be considered in connection with the making and proper care of lawns. A good lawn cannot be made in one season, success coming only through intelligent care for a period of years.

The ground should be thoroughly drained and well prepared. The soil ought not to be too rich, as a rapid growth is not wanted in the grasses of a lawn; but the surface should be as much alike in quality as possible and thoroughly pulverized. After sowing, the ground should be rolled and cross-rolled in order to press the seed firmly into the soil, and ten days or so thereafter a light application of Muzzy's Lawn Fertilizer mixed with an equal quantity of good loam or sand, will serve to stimulate the growth of the young grasses. The proper time to sow grass seed depends, of course, upon the latitude. In the central and eastern states from March 15 to the middle of May is the best time; but in favorable seasons the sowing may be done up to July 1. Seed may also be sown in the Fall, from the latter part of August to the end of September. The sowing should be done when the ground is moist, or before an expected rain, and a subsequent rolling is always advisable. As to weeds in newly-made lawns, it may be generally known that many weed seeds actually lie dormant in the ground for six or seven years and will germinate and make their appearance when the soil is turned up. The annual wild grasses, such as crab grass or Summer grass, must be pulled up by the roots before they ripen their seed in the Fall.

Rolling.—As soon as the frost is out of the ground in the Spring, the land should be gone over with a heavy roller. Winter frosts loosen the soil, and rolling is necessary to compress it again. Roll frequently.

Mowing.—All turf-forming grasses are improved, both in vigor of root-growth and in fineness of texture, by frequent mowings. It is impossible to say just how often the grass should be mown, as that depends upon the rate at which it grows. Too close cutting should be guarded against, however, especially during the hot Summer months, when the roots require some top-growth to protect them from the burning sun. A good top growth is also necessary to protect the roots from severe Winter frosts.

It is a good plan to sow on good land, in any out-of-the-way place, strips for sod to be used for patching poor parts of the lawn, or for grass borders, etc. The best mixture of seed for this purpose is *Cynosurus cristatus* (Crested Dog's-tail). Kentucky Blue Grass and Fancy Red Top.

MUZZY BROTHERS' CELEBRATED LAWN GRASS

	½lb.	1lb.	2lb.	5lb.	20lb.
Muzzy Bros.' Fine Mixed Lawn Grass. Composed of a mixture of the finest grasses; sow three bushels per acre ...	\$0.30	\$0.50	\$1.00	\$2.25	7.00
Muzzy Bros.' Special Lawn Mixture. This extra choice mixture contains a large proportion of the finer and more expensive species of grasses, in extra heavy samples, producing a turf of the closest and finest texture possible35	.65	1.20	3.00	10.00
Muzzy Bros.' Shady Lawn Mixture. A mixture of grasses that thrive in shady situations, under trees, or close to walls where there is little sun35	.65	1.20	3.00	10.00

QUANTITIES TO BE USED

Plot 20 feet by 20 feet, sow 1 pound.

Plot 25 feet by 100 feet, sow 6 pounds.

Plot 25 feet by 50 feet, sow 3 pounds.

Plot one acre, sow 80 pounds.

For large lawns, where turf has become bare through constant use, it is only necessary to sow fresh seed at the rate of one to two bushels to an acre. On such lawns it is well to use our Lawn Dressing, which can be raked in.

MUZZY BROS.' LAWN GRASS, TOP DRESSING.**QUANTITY REQUIRED OF OUR CELEBRATED LAWN DRESSING**

Plot 20 feet by 25 feet, use 5 pounds.....	.50
Plot 20 feet by 50 feet, use 10 pounds.....	.80
Plot 25 feet by 100 feet, use 25 pounds.....	1.50
Plot 50 feet by 100 feet, use 50 pounds	2.50
Plot One-quarter acre, use 100 pounds	4.50

IN THE PREPARATION OF OUR LAWN GRASS WE USE THE GREATEST CARE IN THE GROWING OF THE SEED. ONLY THE HIGHEST IN GERMINATION AND PURITY IS USED.

The Proper Fertilizer For Lawns

SHEEP MANURE, spread about one ton to the acre, is an excellent dressing, and will not bring many weeds.

Sow Broadcast.

NITRATE OF SODA spread broadcast, about 200 pounds to the acre, will give immediate results, and is a good thing to use. For small places, and where it is preferable to make a solution of the nitrate, it can be easily done by putting one pound to fifty gallons of water, and then sprinkled on the grass. Nitrate should be spread broadcast only when a shower is expected, otherwise it is apt to burn the grass. Several light dressings of nitrate are preferable to one heavy one. You get much better results by applying in this way.

When the lawn is of Kentucky Blue Grass, a dressing of slacked lime can be given with advantage. Spread it in the fall after the ground is frozen.

GRASS SEEDS

	Per 10 lbs.	1 lb.
Hard Fescue (<i>Festuca duriuscula</i>), admirable pasture grass of fine quality, thrives well in dry situations. 30 lbs. to the acre	\$3.50	\$0.40
Meadow Fescue (<i>Festuca pratensis</i>), this is excellent for hay when sown with other grasses, such as Orchard Grass and Timothy, and is also considered one of the greatest grasses for permanent pasture on a great variety of soils. 40 lbs. to the acre.....	2.50	.30
Sheep's Fescue (<i>Festuca ovina</i>), does well in high, dry and open pastures, is of short, dense growth, and valuable in lawn mixtures, 30 lbs to the acre.	3.50	.40
Meadow Foxtail (<i>Alopecurus pratensis</i>), regarded as one of the most desirable grasses for permanent pasture, being early and rapid growth. 25 lbs. to the acre.....	8.50	.90
Orchard Grass (<i>Dactylis glomerata</i>), is one of the most desirable of all pasture grasses, coming early in the Spring and remaining later in the Autumn than any other. 3 bu. to the acre. 14 lb. bu.	3.00	.35
Fancy Red Top Grass , cleaned like Timothy; free from chaff	2.50	.30
Rhode Island Bent Grass (<i>Agrostis Tennis</i>), best of all grasses for lawn where only one variety is used.....		1.65
Rye Grass English (<i>Lolium perenne</i>). Probably one of the most important and valuable of the cultivated grasses; is naturally adapted to almost any soil; matures early, and is very productive, but contains less nutrition than Orchard Grass.....	2.25	.25
Rye Grass Italian (<i>Lolium Italicum</i>). This ripens much sooner than the English Rye Grass, and is greatly preferred by cattle and greedily eaten by them, either in a green or dry state.....	2.50	.30
Sweet Vernal Grass (<i>Anthoxanthum odoratum</i>), is not valuable when sown alone, but when sown with other grasses, it becomes so because of its early growth. It also yields a delightful odor when cured for hay. 10 lbs. to the acre, mixed with other grass annuals		1.25
Tall Meadow Oat Grass (<i>Avena Elatior</i>). As a crop to cut for hay, this is very desirable because of its early and luxuriant growth. It shoots up very quickly after being cut, and produces a thick crop of aftermath, which also makes it valuable as a soiling crop. It has been lately in demand and is much valued in the South.....	4.50	.50
Timothy, Herd's Grass (<i>Phleum pratense</i>). As a crop to cut for hay, this is probably unsurpassed. It thrives best on moist, peaty or loamy soils, and is not suited to light or sandy soils, although on such it can with care, be made to produce fair crops. Price according to market, 45 lbs. to bu...	Market Price.	
Wood Meadow Grass (<i>Poa nemoralis</i>). This grass grows well both on shady and exposed situations. 30 lbs. to the acre	8.10	1.15
Tall Oat Grass (<i>Avena Edatior</i>), good for dry pastures and meadows. Is much relished by sheep.....	4.50	.50
Golden or German Millet . This variety is a heavier cropper than the Hungarian Grass, and needs a longer season and stiffer soil. Grows from three to five feet high, stands up well, is easily cured; gives general satisfaction. Three pecks to the acre. Per bushel of 48 lbs.	Market Price.	
Japanese Millet . This wonderful Millet yields possibly more fodder than any other forage plant that requires so little to sow an acre. Frequently as high as 12 tons of green food have been obtained from an acre. It is somewhat coarse in texture, growing sometimes as high as 8 feet; it is, however, ideal for silo or hay purposes. If sown early in May, it may be cut twice in one season. It branches out at the roots, and more than 12 lbs. per acre broadcast cannot be sown to advantage. Sow any time from May 1 to June 15.	1.00	.12
Hungarian Grass . A valuable forage plant, succeeds well on dry, light soil; withstands the drought remarkably, remaining green when all other vegetation is parched up, and if its development is arrested by dry weather, the least rain will restore it to vigor. Sow broadcast. Three pks. to the acre Per bushel of 48 lbs.	1.00	.15

Prices on above subject to market fluctuations without notice.

GRASS SEED—Continued.

These Prices are Subject to Variation.

	Per 10 lbs.	Per lb.
Blue Grass Kentucky (<i>Poa pratensis</i>), extra clean; does well on light dry soils; recommended for permanent pasture; it requires two or three years to form a good sod, and does not arrive at its perfection as a pasture grass until it is much older; valuable in mixtures for lawn. 14 lb. bushel.....	5.40	.65
Blue Grass Canada. Little coarser than Kentucky	4.00	.50
Creeping Bent Grass, Florin (<i>Agrotis stolonifera</i>), used for lawns, well adapted to most places		1.15
Crested Dogtail (<i>Cynosuuros cristatus</i>), good for permanent pasture for sheep, is productive and early, suffers but little from dry weather, and is one of the best grasses for lawns, 25 lbs. to the acre	4.50	.50
Soudan GrGass. Valuable for Hog in sections of drought. Sow 25 lbs. to acre grow from 4 to 7 ft. Yield 2 to 5 tons to acre	100 lb., \$15.00; lb., 25c	

CLOVERS

(Subject to Variation in Price).

Red Clover. Medium (<i>Trifolium pratense</i>). Price variable, 60 lbs. to bushel.	
Red Clover, Large or Pea Vine. Price variable	
White Clover. (<i>Trifolium repens</i>)	
Alfalfa or Lucrene. Requires a deep rich soil, and in such will produce several crops every season. Fifteen pounds to the acre.....	
Alsike or Swedish (<i>Trifolium hybridum</i>). Ten pounds to the acre.....	
Crimson or Italian (<i>Trifolium incarnatum</i>), sown in Autumn, it furnishes an early fodder and is excellent for soiling. Twenty pounds to the acre. Price variable.....	
Bokhara Clover (<i>Melilotus alba</i>), affords excellent feed for bees; it is valuable soiling plant; lasts two years. Ten pounds to the acre.....	
Yellow Trefoil (<i>Medicago lupina</i>) Hop clover. Fifteen pounds to the acre.....	

Market Price

MEADOW AND PASTURE MIXTURES

The formation of permanent and productive meadows and pastures is of great value to farmers, and has been given thorough study by numerous experts, resulting in formulas that will give good results under the varying conditions of our climate.

It is a well known fact that a heavier and more prolonged growth is produced by a mixture of many sorts of grasses than by only one or two. Some sorts do best on high, dry soil, while others prefer plenty of moisture. Some mature so early and others so late that there is no time in the season when one sort or another is not at its best. Grass seed may be sown either early in spring or fall, from September to the middle of October in this latitude. Below we give mixtures that we are confident will give good results.

MEADOW MIXTURE FOR ONE ACRE

- No. 1. On Good Land,
Neither Too Dry nor Too Wet
Price \$12.00 for 40 lbs. Sow 40 lbs. to the acre
- No. 2. For High and Dry Land.
Price \$12.00 for 40 lbs. Sow 40 lbs. to the acre
- No. 3. On Wet Land
Price \$12.00 for 40 lbs. Sow 40 lbs. to the acre

PASTURE MIXTURE FOR ONE ACRE

- No. 4. On Good Land.
Neither Too Wet nor Too Dry.
Price \$12.00 for 40 lbs. Sow 40 lbs. to the acre
- No. 5. On Dry Land
Price \$12.00 for 40 lbs. Sow 40 lbs. to the acre
- No. 6. On Wet Land
Price \$12.00 for 40 lbs. Sow 40 lbs. to the acre

GRAINS

All grains are selected expressly for seed, and are strictly pure and true to name.

Sold at Market Prices and Subject to Change.

SPRING WHEAT, 60 lb. Bushel.

Marquis Spring. This variety has been grown with great success for a number of years in Canada, and is very highly recommended, is bearded, yields well and the kernels are larger than those of other Spring varietiesMarket Price.

White Russian. This variety, recently introduced, has proved very valuable in many localities in the Northwestern States. Straw of good length, strong, does not lodge. It is not inclined to rust. Heads of large size and well filled with plump kernels weighing 60 to 63 lbs. to the bushel. Has produced 40 to 50 bushels to the acre..... Market Price.

WINTER WHEAT, 60 lb. bushel.

Red Man. Also known as the Seneca. This is a beardless white wheat. It proves early and hardy, has a stiff straw, yields larger crops than any otherMarket Price

Fultz. A beardless amber variety, grown largely in some sections of Pennsylvania and with very satisfactory results. It is very hardy and productive, and the straw is of medium length and very strong; makes excellent flourMarket Price

Red Mediterranean. (American). This is the imported variety fully acclimated and is a standard wheat. The heads are bearded and well filled. It succeeds well in nearly all localities and ripens earlyMarket Price

OATS, 32 lb. bushel.

SWEDISH. Very popular and standing well until fully ripe\$1.50 bus.

RYE, 56 lb. Bushel Spring, \$3.00 bus. and Winter Rye, \$2.00 bus.

SPRING BARLEY, 48 lb. Bushel

Vermont Champion (two rowed), \$2.25 Bushel.

BUCKWHEAT, 48 lb. Bushel.

Silver Hull. This variety is a great improvement on the common Buckwheat. Sown at the same time it will continue to bloom longer, matures a few days sooner, and yields nearly or quite double under the same conditions.

JAPANESE BUCKWHEAT.

Yields twice or three times as much as Silver Hull and ripens a week earlier\$2.50 bus.

MISCELLANEOUS SEEDS, ETC.

Kaffir Corn or Sorghum Per lb., 10c; 100 lbs., \$4.00

Essex Rape Lb., 15c; 100 lbs., \$12.00

Cow Peas. For Fodder .. .Per pk., \$1.25; bu., \$4.00

General List of Flower Seeds

CULTIVATION OF FLOWER SEEDS

HARDY ANNUALS

Successive sowing may be made from March to the end of September; March, April and May are the best months for general Summer display; June and July for Autumn blooming, and August and September for Spring flowering. The soil should be carefully prepared by being finely pulverized and made light and rich.

Sow thinly; cover with a very thin coat of fine dry earth—the smallest seeds needing but a mere dusting to cover them—and from the first keep the plants thinned sufficiently to prevent overcrowding, which weakens them and produces poor blooms.

HALF HARDY AND TENDER ANNUALS.

These include some of the most beautiful and varied of our Summer flowers, among which may be mentioned Asters, Balsam, Ten Weeks Stocks, Phlox, Drummondii and Double Zinnia, which in form, size and brilliancy of flowers, and their great diversity of color, are now brought to a high state of perfection.

Sow from the beginning of March to June; when sown in March and early part of April, sow thinly in well-drained pots, pans or boxes; place in the greenhouse or a frame where there is a mild heat, or in the absence of these a sunny window in the house will do; cover the seeds lightly, press down the soil firmly and give a gentle watering with a fine rose watering pot.

Separate the plants when large enough to handle, and firmly plant out in May, as soon as the weather is sufficiently warm where intended to flower. The seed can be sown in the open ground in May and June.

HARDY BIENNIALS AND PERENNIALS.

These can be grown at all seasons of the year in the open garden without protection, and may therefore be placed among the most useful of our flowering plants their variety is almost endless, producing almost every form of flower and shade of color.

The seeds may be sown from May to October, but the best time is in May and June. Select for sowing a shady, moist situation, and in order to secure fine, strong plants, sow thinly, and as soon as large enough transplant in showery weather to nursery beds, and finally plant out in October and November, those sown in Autumn are best planted out in March or April, where intended to flower. Many Perennials, if sown early and treated as Annuals will flower the first season. The Pansy, Petunia, ChinaPink and its several splendid varieties, and many others do better as Annuals than Perennials.

ANNUALS FOR WINTER BLOOMING

Many Annuals are very desirable for the greenhouse for Winter blooming; these should be sown in July or August. The most important are Browallia, Candytuft, German Stocks, Lobelia, Mignonette, Schizanthus, Sweet Alyssum and Dwarf Nasturtiums. Many varieties as well as the above may be sown in the Fall and Winter for blooming early in the Spring, such as Acroclinium, Ageratum, Antirrhinum, Apple-scented Geranium, China Pinks, Dianthus, Mimulus, Myosotis, Pansy, Petunias, Phlox Drummondii, Salpiglossis, Salvia, Verbena Vinca and others.

Abbreviations and Signs used in the following list

- | | |
|---|---|
| <p>A. Annual, refers to those plants that last but one season and must be raised annually.</p> <p>B. Biennial, raised one year, bloom and die the next.</p> <p>P. Perennial, lasts two or more seasons.</p> <p>h. Hardy, as those that may be grown at all seasons in open air, without protection.</p> <p>hh. Half hardy, require the protection of a frame pit; or handlight till May, when they may be transferred to the open garden.</p> | <p>t. Tender, require to be raised and grown under glass, and will only do in the open air in July, August and September.</p> <p>cl. Climbing, as Cypress Vine, Morning Glory, etc.</p> <p>spr. Spreading or trailing as Verbena.</p> <p>g. Greenhouse, those plants which require to be grown under glass.</p> <p>s. Shrubs, plants of a shrubby or bushy habit.</p> |
|---|---|

Those Biennials, and Perennials marked with an (*) will bloom the first year if sown early.

PURE PULVERIZED SHEEP MANURE

A pure, natural and nutritious manure. Immediate and lasting in effect. Excellent for mixing with soil of the greenhouse plants. In the vegetable garden it promotes a rapid, steady growth until maturity. It makes a rich Liquid Manure.

Quantity Required. For garden and field crops, 1 to 2 tons per acre—half before plowing, the balance before harrowing. For top dressing grass; use 1 ton per acre in fall or early spring			
25 lbs.	1.25	1 lb.10

ACID PROSPHATE**14 to 16 per cent. Available Phosphoric Acid.**

This is one of our Fertilizers which is used in the largest quantity in most of our mixtures as a base.

Per ton \$25.00 Per 200 lbs. \$3.50

Pulverized Limestone

These are high calcium limes and are adapted for use on all soils that require sweetening.

Most lawns and gardens require an application of lime in some form.

The Ground Limestone is recommended for top dressing lawns and for all farm crops.

Leguminous crops such as Alfalfa, Clover, Peas and Beans in particular require applications of lime.

Ground Limestone packed in 100 lb. sacks, price \$1.25; \$15.00 per ton.

American Ready-Lite Lamp and Lanterns

Light With Matches—No Alcohol Torch Necessary

“The Sunshine of the Night”

Ready-Lite With Special Design **OPAL SHADE** Ready-Lite Lantern With Mica Chimney and Reflector

Gives a brilliant white light of 300 candle power, softened and diffused by the opal shade, making it restful and pleasing to the eyes. The best lamp to read, study or work by and an ornament in any room. Height 20 inches, diameter of fount 8½ inches; capacity 3 pints; burns 18 to 20 hours on one filling. Packed in corrugated box with pump, wrench, tip cleaner, mantles and one extra generator. Each\$8.50

The New Ready-Lite marks a great improvement in gasoline lanterns, especially in the construction of the generator. This new match-lighting generator has no coils to obstruct and hold impurities in the gasoline and will give unusually long service. It is very inexpensive and may be replaced quickly without breaking the mantle. The New Ready-Lite is more substantially built, better finished than similar lanterns. Price\$7.50

READY-LITE ADVANTAGES

BRILLIANT—400 Candle Power, strong pure, white light. Brighter than 20 old style lamps or lanterns.

SAFE—Can't spill fuel or explode even if tipped over. Can't be filled while lighted.

CLEAN—No greasy wick to trim. No dirty chimney to wash. No smoke. No soot. No odor.

ECONOMICAL—Cost to use less than half a cent per hour.

CONVENIENT—Make and burn their own gas—light with matches. Lamp holds 3 pints—burns 18 hours on one filling. Lantern holds quart—good for 12 hours per filling.

DURABLE—Made of brass, heavily nickel plated, and highly polished.

The Meeker Smoothing Harrow

"Helps Good Seeds Grow"

Prepares Any Soil for Planting

THE MEEKER HARROW is a perfect pulverizing and smoothing harrow and land roller combined.

As the illustration shows, it has four sets of rollers, equipped with 46, 58 or 82 discs, depending upon the size. These discs are set in alternating rows so that the entire surface is thoroughly worked. They grind up all lumps, leaving the soil fine and smooth. Even in damp soil, the alternating arrangement of the discs prevents clogging.

The board in the center serves as a leveler. It is set at an angle and can be adjusted up and down. It smoothes down ridges and fills up the hollows.

Price 6 ft., 8 in. x 6 ft., with 8 discs, \$36.00

Price 4 ft., 6 in. x 4 ft., with 8 discs, 32.00

THE BOSS PLOW

This is the best one horse convertible Plow ever sold for the use of market gardeners and farmers generally. By changing the Moldboards and Shares that come with the Plow, the purchaser actually has four plows in one. Price complete\$9.98

No. 1½ Moldboard and Share makes a large one horse Plow.

No. 2½ Moldboard and Share making a medium sized one horse Plow, a cabbage Moldboard and Share making a complete Cabbage Plow, and by using the Plow without the moldboard with the small Share bolted to the standard, makes a superior Plow for working among cabbage, strawberries, etc.

Mitchell Potato Digger and Shovel Plow Combined, \$13.00

Price with wings only\$9.98

Potato Digger\$4.50

This implement should be in the hands of every practical farmer, doing its work easily and in the most perfect manner. By the changing of one bolt it may be converted into a Shovel Plow or Potato Digger. The fingers are adjustable, being held in position by the plow point. Thus in case of breakage, a new part may be inserted without the expense of a whole new head. The fingers, points and wings are of steel, rendering it light, strong and durable.

Darnell's Patent Furrower and Marker

In presenting the numerous merits of this invaluable little implement we would be glad to draw a comparison with another of its kind, but we have seen or heard of nothing but the ordinary scratch sleds which made a mere mark as a guide for the plow which follows, thus increasing the work instead of lessening it.

We have a genial ever-borrowing neighbor, however, with whom we might compare notes, and we will just bring him forward with his plow which he is inclined to think good enough yet. We think you will not fail to notice the difference.

We ride while he walks. We bring into requisition the services of our boy, if busy ourselves, while nothing short of a man, and a good one, too, can handle the plow.

We open two furrows while he opens one in clean ground, and do it better. 5 ft. 6 in. Price \$30.00.

Horse Hoe and Cultivator Combined

With Expanding Lever

Price Complete \$9.98

AQUAROID ROOFING

Quality Certified

Quality Guaranteed

1 Ply 5 Years

GUARANTEED

Planet Jr. Garden Tools

The New "PLANET JR." Catalogue is the handsomest, best and most instructive book ever issued on a similar subject. Full of little points that bring profit. Full of true and handsome illustrations. We mail it free to any address on application.

NO. 4 PLANET JR. COMBINED HILL AND DRILL SEEDER, WHEEL HOE CULTIVATOR AND PLOW.

Price, Complete, \$18.50. Weight, 50 lbs.
As a Seeder Only, \$14.50. Holds $2\frac{1}{2}$ qts. seed

This accurate, durable and easy-running tool sows all garden seeds from the smallest up to peas and beans in hills, 4, 6, 8, 12 or 24 inches apart, or in drills at the proper thickness and depth; rolling down and marking out the next row all at one passage. No time is lost. No seed is wasted. By removing the seeder parts and substituting the tool frame, you have a first-class single wheel hoe with a set of specially hardened steel tools, the best made for hoeing, plowing, cultivating, opening furrows, hilling, etc.

NO. 25 PLANET JR. COMBINED HILL AND DRILL SEEDER, DOUBLE AND SINGLE WHEEL HOE, CULTIVATOR AND PLOW.

Price \$22.00

Weight packed, 61 lbs. Holds $2\frac{1}{2}$ qts. of Seed

This combination is intended for gardeners who have a large enough acreage in crops for a double wheel hoe to be used to good advantage, and yet prefer not to buy seeders and wheel hoes separately; and for the family garden where a double wheel hoe is preferred.

As a seeder it is practically the same as the Planet Jr. No. 4, and as a wheel hoe has the same steel frames and cultivating attachments as the Planet Jr. No. 12 Double Wheel Hoe.

NO. 3 PLANET JR. HILL AND DRILL SEEDER.

A favorite among onion growers, market gardeners and seedsmen.

The 15-inch driving wheel is steel, with heavy forged spokes, making the tool light and easy running.

The opening plow is V-shaped, adjustable for depth, leaving the seed in a very narrow line, making close cultivation easy. The index is in plain view at top of handles and graduated for hills or drills.

The flow of seed is instantly started or stopped by the cut-off rod. No seed wasted at end of rows. Sows in large or small quantities in drills or in hills, 4, 6, 8, 12, 24 inches apart. Force feed.

Holds 3 qts. of Seed. Weight packed, 43 lbs.
Price \$18.00

Planet Jr. Garden Tools

These Wheel Hoes are the highest type of their class. They have a great variety of attachments which adapt them to a large variety of work, and there is scarcely any garden cultivation they will not do.

Price \$29.50

attached to any Planet Jr. wheel hoe or garden plow, except the Fire Fly Plow. Sows a five-cent packet of seed as economically as a full hopper, at the proper depth and thickness; and produces a uniform stand.

NO. 20-D PLANET JR. FERTILIZER DRILL
Give your crops the fertilizer when they need it most. Instead of sowing all the fertilizer at the time the seed are planted, sow only a portion; when the crop is up side—dress with a good quick acting fertilizer—using the Planet Jr. No. 20-D Fertilizer Drill to distribute it just where it will do the most good. The new spout arrangement permits distribution to right and left at one time, all down the center, or to the right or left—as you desire. Gives you quicker crops, and more tender, so that they sell at better prices.

PLANET JR. NO. 35 SEEDER ATTACHMENT

Made to fill an insistent demand for a small seeder attachment to be used with wheel hoes. Can be at-

Price \$6.00

NO. 12 COMBINED DOUBLE AND SINGLE WHEEL HOE, CULTIVATOR AND PLOW

Straddles crops till 20 inches high, then can be worked between rows with 1 or 2 wheels.

The hoes are wonderful weed killers and leave the ground almost level. The cultivator teeth are of improved design and admirable for deep work. The plows are invaluable for opening furrows for manure, etc.; for covering and for plowing to or from the crop.

Price \$11.00

NO. 13 DOUBLE AND SINGLE WHEEL HOE.

Price \$7.75. Weight 28 lbs.

This tool is the No. 12, with 6-inch hoes only, these being the tools that are most used.

No. 16. Price \$9.00. Weight 26 lbs.
Steel Frame. 15-inch Steel Wheel.

No. 12. 14-inch steel wheels. Steel frame.
Price \$11.00. Weight, 33 lbs.

NO. 16 PLANET JR. SINGLE WHEEL HOE, CULTIVATOR, RAKE AND PLOW

\$9.00

Nos. 16, 17 and 18 have the same steel wheels, frames and handles, but the attachments sold with each vary.

The handles are adjustable in height. The frame is steel, convenient and strong with quick change device by which to exchange the tools without removing the nuts.

NO. 17 PLANET JR. SINGLE WHEEL HOE.

Price \$7.50. Weight, 24 lbs.

The No. 17 has a pair of 6-inch hoes, a plow and a set of cultivator teeth, an outfit sufficient for most garden work

NO. 18 SINGLE WHEEL HOE.

Price \$5.50. Weight, 19 lbs.

This has one pair of 6-inch hoes only—the tools that are most constantly useful throughout the season.

Planet Jr. Tools

No other cultivating machine is so widely known as the Planet Jr. Combined Horse Hoe and Cultivator, for it is in use throughout the civilized world. It is so strongly built as to withstand incredible strain, yet it is light and easy to handle.

Price \$17.75. Packed weight, 77 lbs.

NO. 7 PLANET JR. COMBINED HORSE HOE AND CULTIVATOR.

Steel Wheel.

Opens and closes furrows, hoes right up to the plants without danger of injury, throws dirt to or from the row and throws back from centre again. Adjusts for any width. The teeth, made of beveled steel, specially hardened, retain their cutting shape and outwear anything made. The steel wheel won't clog. The handles adjust up, down or sidewise.

Price with Steel Wheel, \$16.25

NO. 9 PLANET JR. COMBINED HORSE HOE AND CULTIVATOR.

Weight packed, 70 lbs.

This Horse Hoe is identical with No. 7, except that it has a plain wheel instead of lever wheel. It has the high frame, patented hollow steel standards, steel wheel, patent lever expander, and hollow steel wheel arms.

This tool has become popular because of its strength and lightness, easy change of width, and while not so handy as a tool with a lever wheel, it is a favorite.

The New Steel Wheel, having no spokes, will not clog with corn stalks, stones or other trash, and little or no sand or dirt can be carried up on the inside of the rim to drop on the bearings.

PLANET JR. TWELVE-TOOTH HARROW, CULTIVATOR AND PULVERIZER.

No. 90, Complete, with Steel Wheels, \$18.50
Weight packed, 74 lbs.

No. 90-B. Without Pulverizer, \$15.25

No. 90-D, Without Pulverizer of Wheel, \$12.25
No. 91, with Steel Wheel, \$14.50.

Gardeners cultivate better than formerly and find it pays. The chisel-shaped teeth on this tool go as deep or shallow as you like, close to row, without injuring plants, cut out all weeds, stir the soil and mellow and fine it as with a garden rake. Any width from 12 to 32 inches. A special favorite with strawberry and tobacco growers, market gardeners, truckers and small fruit growers.

Planet Jr. No. 101

Price \$11.50. Weight packed, 58 lbs.

This tool is somewhat lighter than our other cultivators and is offered with the object of filling a definite need where lands are light or where farming is done on a modest scale. Its weight adapts it particularly to use in light land, but it is strong enough for use everywhere, and is so simple in construction and has so few parts, it can't get out of order. The cultivator teeth are made of high carbon, beveled steel, and will retain their shape. The turning shovels are of special design, of elegant proportion and useful in connection with the shovel steel in throwing furrows, and afterwards covering them, and for plowing and hilling much or little as desired. Furnished as an extra, \$1.10 per set.

NO. 119 PLANET JR. GARDEN PLOW AND CULTIVATOR

The No. 119 high wheel cultivator is a favorite with those who prefer the high wheel tool. The design and variety of cultivating attachments is such that with it you can do all the necessary garden plowing, opening of furrows for seed and fertilizer, etc. and closing of furrows; hilling up plants, and the general cultivation in the garden. Runs very easily where the ground is rough or not so well prepared as it might be. Handle adjustment for height. A tool that is 100% better than the old hand hoe, and costs very little.

Equipment: One garden plow; one 4-inch cultivator tooth; 1 $\frac{3}{4}$ -inch cultivator tooth; one combined scuffle blade and three-tooth cultivating attachment.

Price \$4.75

FIRE FLY GARDEN PLOW

A very useful garden tool at a very moderate price. With it you can open a furrow three or four inches wide, two or three inches deep, and deeper by running the furrow the second time. After planting potatoes, and the larger seed, the furrow can be closed with this tool. Will do all the necessary garden plowing. Used as a cultivator—by throwing the soil away from the row, letting it stand until the weeds have been killed, and then throwing the soil back to the row—you get very effective cultivation.

Price \$4.00

PLANET JR. JUVENILE GARDEN CULTIVATOR

When Spring comes the boys and girls want to get out in the garden and help their parents. But as a rule, there are no tools for them to work with. But now the youngsters six to sixteen years of age can have their own garden tool—the Planet Jr. Juvenile Garden Cultivator. And they will be mighty proud to claim it as their own and use it. Made after the pattern of the regular Planet Jr. Single Wheel Hoe—but just the right size for boys and girls. Equipped with three steel cultivator teeth which do very fine work. 4 $\frac{1}{2}$ -inch hoes, a plow, and other attachments can be added when wanted.

Price \$4.50

PLANET JR. STAR PULVERIZER, WEEDER AND CULTIVATOR

A very useful tool in the small vegetable or flower garden. Indispensable in the proper preparation of the seed bed. The small disc wheels break up the soil and the oscillating blade, which works backward and forward, pulverizes the soil, at the same time cutting off the weeds directly beneath the surface. Very useful where plants are close together, as the width of the tool is only eight inches and is very easily handled. After a rain you may cultivate with it without leaving the ground in a lumpy condition.

Price \$3.50

ing Fork,
Strapped, \$1.98.

Two Tine Hay Fork, 4 1-2 ft. Handle, 60c.

Three Tine Hay Fork, 5 ft. handle, Strapped, \$1.10. 5 1-2 ft. handle, Strapped, \$1.25.

OHIO SPIKE TOOTH HARROW - 60 Teeth

The U-bars, channels, oscillating bars and teeth, are made of high carbon steel, precluding all possibility of bending. The channels, being placed at the ends of the U-bars, prevent them from catching on obstructions as is frequently the case with the open end harrow. Strong and well made but carrying no superfluous weight. Corner braces, oscillating castings and lever castings of malleable iron. Made in one 30 tooth section, and with $\frac{5}{8}$ teeth, \$13.98, or in Two 30 tooth sections with $\frac{5}{8}$ teeth, \$26.00.

Flexible - but doesn't crack or break

heretofore impossible with ordinary glass. CEL-O-GLASS IS NOT A FABRIC. It has a tough wire mesh base which gives it almost unbelievable strength. It is unbreakable, hail-proof, snowproof, rainproof and heatproof. Thousands of florists and growers have proved the durability of CEL-O-GLASS in actual use. It is easy to apply and presents a very neat and attractive appearance. An ordinary hammer, a few tacks and a pair of scissors are all the tools you need. No glazing, no expensive labor. No breakage.

CEL-O-GLASS is also ideal for greenhouse and hotbed sash. Its extremely light weight and the fact that it is unbreakable permits of lighter construction and resulting economies

CEL-O-GLASS comes in rolls 3 feet wide, in any length desired. Include a trial roll of CEL-O-GLASS in your next order. Price, 16 sq. ft. roll, 13c.

Labels, Wooden

Tree and Pot Labels are both supplied in 100; 500, and 1000 lot packages.

Tree Labels 3½ inch copper wired, painted, per 100, 50c; 500, \$1.50; 1000, \$2.75.

Iron Wire, per 100, 40c; 500, \$1.50; 1000, \$2.50.

Muzzy Brothers' House Paint

These paints are manufactured by experienced and practical workmen from compounded materials of intrinsic value as pigments, which are thoroughly mixed and ground together by improved machinery, producing a paint possessing superior durability, covering capacity and uniformity of shade. We feel confident in stating that our Mixed Paints are cheaper to the consumer than white lead, because of their great spreading and covering capacity.

The colors are arranged on a card to show the most beautiful and durable shades for House Painting. In general, two tints or tones of the same color produce the best effect. The body color should generally be a light tint, but for larger residences, hotels, etc., a medium color for the body, with a light tint for trimmings, will create pleasing results.

\$3.50 per gallon.

Insecticides and Remedies for Plant Diseases

Lotol—The Complete Concentrated Contact Remedy. For Many Varieties of Aphis (Plant Lice) and of Other Insect Pests. "NO FUSS—NO MUSS"—"A Teaspoonful Makes a Gallon." Price, 35c.

White Helleboro. An excellent remedy against currant worms, rose slugs, caterpillar, etc. Can be used either dry or in water; $\frac{1}{4}$ -lb., 15c; $\frac{1}{2}$ -lb., 25c; 1-lb., 40c.

Lime and Sulphur Solution. For San Jose scale, 1 gal. makes 15 by adding water. 1 qt., 40c; 1 gal. 90c; 5 gal. \$4.00; $\frac{1}{2}$ bbl. (30 gal.) @ 35c; 1 bbl. (50 gal.) @ 25c gal. Dry—lb. @ 35c; 5 lb. @ 1.50; 10 lb. @ 2.75; 25 lb @ 5.50.

Fish Oil Soap. One of the most effective agents used for destroying scale bug, plant lice and all other insects injurious to vegetation.

Price, 1-lb. box, 35c

ARSENATE OF LEAD

Its great advantages are that it adheres well to the foliage and spraying does not have to be repeated, as it does not readily wash off by rain.

Per 100 lb. bag, \$1.50—Ton \$25.00.

THE AUTO NO. 42 WHEEL SPRAYER

Applies, in a mist-like spray, all fluid insecticide and fungicide solutions on garden crops, ornamental plants, shrubs and low trees; also useful for whitewashing, applying sheep dip, fly oils, etc. It is a most convenient, large capacity, Auto Sprayer, fitted to a tubular iron frame with 20-inch wheel, so that it is as easily moved about as a wheel-barrow. The tank of heavy galvanized steel or brass (as may be selected) holds the spray solution and the compressed air pump with which the operator keeps up a continuous and uniform spray. The machine is furnished with 8 ft. of high pressure spray hose with connections in 8 ft. iron extension pipe with lever "shut-off" for tree spraying and the latest pattern Vermorel nozzle, which fits either the hose or pipe. Price, with 12 gal. galvanized steel tank, \$23.00.

LOWELL GRAND SPRAYER FOR LIQUID

DESCRIPTION.

Tapered cylinder reservoir, 4 inch bottom, 3 inch top, 1½ inch pump cylinder, 20 inches long. Plunger rod bright steel. Plunger our special make. Two brass solution or spray tubes. One inch zinc can screw for filling. Strong and durable in construction. Each sprayer is tested for leaks and perfect spray. Capacity of tank one quart. Aluminum finish. Galvanized Steel, 65c.

Lowell Baby Midget Sprayers for Liquids, 35c

BROWN'S CONTINUOUS SPRAYER

The Brown Continuous Sprayer, as the name implies is so constructed that it not only sprays on the downward stroke of plunger but also when it is drawn back, thus causing a continuous mist-like spray.

Brass \$1.25
Lowell—Galv.85

THE LOWELL FOUNTAIN COMPRESSED AIR SPRAYER

One pumping will expel entire contents of tank and is sufficient to spray 2,000 plants. Spraying nozzle may be reversed to spray under side of bushes and plants. Automatic Thumb Lever Valve is at all times under complete control of operator, hence none of the solution is wasted. It saves its cost in making a given amount of compound do so much more work. An Adjustable Shoulder Strap and Tree Attachment with suitable coupling for orchard and tree spraying, furnished with each machine. Aluminum finish. Capacity, 3 gallons. Price, Galvanized, \$6.48; Brass, \$8.48.

NO. 28—"LIGHTNING" WHITEWASH SPRAYER

This is the only Spray Pump that will properly spray whitewash without clogging. It is constructed of heavy galvanized iron, with brass tops and valves. Large air chambers and ball valves, the pressure maintaining a continuous stream or spray not affected by the upward stroke. Can also be used for washing windows, buggies and sprinkling lawns, flowers, etc. Price 2.98.

No. 28—Price \$2.98

Sturdy Brass Spray Pump—Can be used for spraying trees, vines, garden truck, potatoes and any field crop; it also may be used for handling whitewash, disinfectant, etc. Price \$4.98.

PUMP NO. 25
FOR BARREL USE
Price \$13.98

BROWN'S AUTO SPRAY No. 1

The Auto-Spray No. 1 is the standard of all compressed air sprayers. It is the strongest and most simple in its working parts of any similar machine. Self operating. Two pumpings of a few strokes on the plunger will discharge the contents under high and constant pressure. After pumping, the operator has only to direct the spray.

Uses. For spraying trees, shrubs, vines, field crops, in the greenhouse, poultry house. For applying disinfectants and cattle-fly oils. Will handle all solutions, including whitewash and cold water paint.

Price, Galvanized, \$6.48.

Brass, \$9.48.

Milk Bottle Filler

Sensible \$10.00

It is sensible because it is simple, no levers, no springs, just a heavy tin tank made of I X X X X Cookley K Char coal tin plates, holding 60 quarts, and with two faucets in the bottom. These re-

move any particles which may have remained in the milk, and cause the streams to flow in smooth, even columns.

We have built the Sensible so strong and heavy that it will last a life time. You can find no more sensible way to fill your bottles.

Dairymen's Cleaner and Cleanser for Milk Bottles

It is also a perfect sanitary cleanser for use in the home or on the farm, for washing dishes, glass, refrigerators, pots and pans, milking utensils, floors, baths, toilets, etc. 5 lb. 35c.

Milk Strainers

A LARGE ASSORTMENT

DAIRY AND MILKMEN'S SUPPLIES—Continued

R. & A. Unbound Sanitary Delivery Cases

Patented Nov. 7, 1905.

The weight of unbound cases is about three pounds less than bound cases, and for this reason they are preferred by many dealers. This style is made with or without bottom corner irons. Pressed galvanized steel stacking corner irons are always included.

A—Heavy stacking corner iron.

C—Bottom corner iron.

D—Galvanized steel support.

The bottles are always held in correct position to be filled and capped, as the galvanized steel support "D" keeps the long wires from sagging.

Galvanized Wire Netting

Poultry Netting

Our Poultry Netting is woven from the best quality of steel wire of full standard gauge. It is heavily galvanized after weaving, thus insuring the greatest durability.

Wire 2 inch Mesh, 1 ft., 2 ft., 2½ ft., 3 ft., 4 ft., 5 ft., 6 ft. No. 20 Wire 1 inch Mesh, 1 ft., 2 ft., 2½ ft., 3 ft., 4 ft., 5 ft. and 6 ft.

Market Prices.

Ornamental Fences and Gates

Our Ornamental Fences are exclusive in design, and embody many highly meritorious features not to be found in those of any other manufacture.

Our fabrics are made by cabling horizontal wires and inserting, at regular spaces, heavy upright or picket-wires which are corrugated either at intervals or continuously to engage the cabled line-wires, reversing the twist of the cable on each picket—thereby causing the cables to become firmly seated in the corrugations of the uprights, thus forming an immovable joint, and providing for contraction and expansion. Will not unravel when cut.

------------	------------

A neat, artistic, and inexpensive fabric for the protection of flower beds. Also much used for lawn and curbway border. Can be readily taken up and used from year to year, cut off to length required, and the ends hooked together when set. No posts are required to hold it in place, as the picket ends are left projecting for insertion in the ground. Uprights are of No. 9 and cables of No. 13 heavily galvanized wire.

ORNAMENTAL WALK GATES

Cyclone Ornamental Gates are made to match any of our styles of fabric. Frames are of high grade steel tubing, with fittings of high-grade malleable iron and wrought steel. Same style as above we quote: Sizes, height from 26 in. to 42 in. width, 3 ft., \$4.00, plain \$3.50; 3½ ft., \$4.50, plain \$4.00.

HIGH GRADE POULTRY AND PIGEON SUPPLIES

Pratt's Baby Chick Food

For the "First Three Weeks"

Saves the little chicks—brings them through the first three weeks in fine shape—keeps them well and makes them grow fast. The most successful poultrymen all over the country testify that PRATTS BABY CHICK FOOD is the greatest money saver and chick saver that they have ever seen. If you want real success with your chicks—want to raise all that are hatched every time—use PRATTS BABY CHICK FOOD. Try it once and you will never be without it.

14 lb. Bags, \$1.10. Packages, 25c and 50c.

Full of Pep Dry Mash

Feed for the Growth Stage

A standard mixture of re-cleaned Cracked Grains, Seeds and Hulled Oats. The proportions are similar to the "Sun Brand," but a trifle coarser, especially to meet the requirements of the older chicks, although used by many from the beginning.

Prices on application.

Conkey's Buttermilk Food

Price 5 lb. pkg.40
Price 10 lb. pkg.75
Price 25 lb. pkg.1.75
Price 100 lb. pkg.5.50

Developing Food

A special food for properly maturing young chicks after they are weaned from Chick Food up to the time for feeding scratching food and laying food. Developing food is dry grain and may be fed from hoppers, but better results may be had by scattering broadcast.

Scratch Food

For Grown Fowls
Suitable for all Seasons

A carefully selected mixed balanced ration of grains, cracked and whole seeds, etc., adapted to the vigorous growth of fowls and production of eggs. Scratching food should be scattered in the litter the first thing in the morning and at noon; late in the afternoon feed all the mash food they will clean up. Prices on application.

Beef Scrap

Standard Meat Food for Poultry of all Ages

High Protein Beef Scraps is an especially valuable meat food for poultry and gives very satisfactory results. Any kind of Beef Scraps will not answer. Poor beef scours the birds and often injures them, when the first is used the results are uniformly good. Do not fail to buy your supply from a reliable source.

Prices on application.

Semi-Solid Buttermilk

Is pure creamery buttermilk condensed to the consistency of a thick semi-solid paste. SEMI-SOLID BUTTERMILK, being thoroughly pasteurized, is a perfectly safe feed at all times. Skimmilk is often responsible for tuberculosis in poultry, and unless the skim-milk is from perfectly healthy cows, or is thoroughly pasteurized before feeding, it may cost the poultryman considerable in lowered egg production and increased mortality. SEMI-SOLID BUTTERMILK keeps a long time in the unopened package, and the open package will keep almost indefinitely if the sides are kept clean and some milk removed daily from the entire surface. Semi-Solid comes in one gallon cans, 50-pound sanitary steel pails, 100-pound wood jacketed cans, and 500-pound barrels.

Price on Application

Charcoal

Prepared expressly for poultry, absolutely pure, essential to health of fowls and aids to digestion. We carry three grades:

No. 2. Fine, for use on mash mixtures.

No. 1. Medium, for small chicks.

No. 0. Coarse, for fowls, 1 lb. 10c.

5 lbs., 35c.	10 lbs., 60c.	25 lbs., \$1.00
50 lbs., \$1.75	100 lbs., \$3.25	

Ground Bone

Fine and Granulated.

Ground Bone is made from Dry Bone, and contains Phosphates, Lime and Protein and is especially valued as an egg producer.

Prices on application.

Cut Alfalfa Clover

A Poultry Food that aids digestion and assists in the assimilation of grain foods, thereby giving better results at lower cost. Among green foods, Alfalfa stands at the top. Meal-fed Alfalfa is a boon to poultrymen. It is used in a mash for small chicks as well as to mature fowls. If more of this meal was fed to young chicks there would be less mortality.

Prices on application.

Cut Red Clover

Cut Clover has become the standard green food for winter egg production. It is used and recommended by every poultry expert and well-known practical poultryman in America.

Writers on poultry topics endorse it as a necessity, especially during the long winter months when the fowls are unable to obtain a substitute for the bulky green food which is so plentiful during the summer season in the shape of grass clover and vegetables.

Prices on application.

Crushed Oyster Shells

It is needless for us to enlarge on the value of oyster shells for poultry. Every poultryman realizes their importance as an egg maker and general promoter of good health.

------------	--------------	---------------	---------------	-------------------

Seeds and Grains

We carry a full line of the following: Wheat, Barley, Millet, Hemp, Sunflower, Kaffer Corn, Canadian Peas, Cracked Rice, Linseed Meal, Canary Seed and Mixed Bird Seed, Buckwheat, Rye, etc.

1-2-3 Poultry Feeder

For feeding Dry Mash, Scraps, Grit, Oyster Shells, Charcoal or any poultry feed. The separator can be arranged so as you can have one, two or three compartments. When used for two kinds put separator in one end; when for one kind of feed take out the separator; used for three kinds, say scraps, shells, and grit, put separator in the middle and you have three separate compartments. Price, \$1.50.

SOLE AGENTS

O. K. POULTRY LITTER

A deodorizer, absorbent disinfectant, sonomical and labor saving scratching Litter, it is imported and is especially adapted as a litter in Scratching Pens and for catching droppings under perches. It absorbs all moisture from the droppings and they quickly dry up. It absorbs the ammonia and poisonous gases.

Lice will not live in it. It is the best Neest material because it is soft and pliable and will not harbor lice. By following directions you need only clean your pens once in three or six months, thus saving much time and labor.

Chestnut hard coal is recommended for use in this Brooder, but soft coal may be satisfactorily used with our Four-inch Flue.

Here is another Colony Brooder improvement. A Screw Plate Draft is placed on the ash pit door, which permits draft to be opened as much as necessary for the proper combustion of soft coal. This draft is also helpful in starting a hard coal fire.

Another big feature on this brooder is that the regulators are equipped with two double disc thermostat wafers which are very durable and sensitive. This of course insures positive regulation of the check draft.

No. 9—Size of canopy, 42 inches; capacity 500 or less; height, 22 inches; diameter of cylinder, 10 inches; diameter of grate, 9 inches; price \$21.50.

No. 10.—Size of canopy, 52 inches; capacity 1,000 or less; height, 26 inches, diameter of cylinder, 13 inches; diameter of grate 11 inches, price \$26.50.

No. 11.—Size of canopy, 60 inches; capacity 1,200 or less. Price \$30.00.

It's a tonic too.
More than a tonic—

It's a powerful medicine
That cures and prevents
WHITE DIARRHEA

Pratts

POULTRY AND ANIMAL REGULATORS AND REMEDIES. BABY CHICK FOOD, WITH BUTTERMILK.

Healthy birds and lots of eggs, the two big things in poultry raising usually follow the use of

PRATTS POULTRY REGULATOR

Packages 25c, 50c and \$1.10.
25-lb. Pails, \$3.00

50 lb. Drum \$5.50
12 lb. Pails, \$1.65.

It builds up vitality, promotes sound digestion, sharpens appetite, thus helping to put birds into condition for heavy egg laying or winning blue ribbons.

Given to breeding stock it increases the fertility of eggs, strong in vitality, that will hatch chicks that will grow. Use it if you want big hatches of healthy chicks that will develop into husky pullets and cockerels.

It will help many of the common poultry ailments. It will greatly improve turkeys, geese, ducks, pigeons and guineas.

"Don't let ROUP cut your profits. The sure and easy "ounce of prevention" against this dangerously contagious disease is

Pratts Roup

Tablets or Powder
25c and 50c.

Quickly absorbed by the blood, purifies the system, reduces fever, allays inflammation. The safe remedy for roup, colds, catarrh and many bad weather diseases.

When baby chicks come keep them healthy and growing and bring even the weak ones along by feeding

Pratts Baby Chick Food with Buttermilk

In Small Packages—Also 14, 25, 50 and 100-lb. Bags

A largely predigested baby food for baby chicks. Guaranteed to raise every livable chick. Helps Leg weakness, white diarrhoea, "pasting up" and other chick diseases.

PRATTS White Diarrhoea Tablets, 25c and 50c
PRATTS Head Lice Ointment, 30c.
PRATTS Special Compound, 25c and 50c.
(For Cholera).
PRATTS Condition Tablets, 25c and 50c.

Get rid of lice on your poultry, in nests, dust-baths, incubators and elsewhere by using

Pratts Powdered Lice Killer

12c, 25c and 50c

Effective, non-irritating. It quickly kills lice on little chicks, big chicks, setting hens and incubator chicks. It rids horses, cattle hogs, dogs and cats of lice, and destroys ticks on sheep. It destroys many insects and bugs on vines, plants and flowers. Drives out moths from closets, furniture, carpets and clothing.

More work out of your horses, more milk from your cows, fatter hogs—these are a few of the benefits which come from using

Pratts Animal Regulator

This is the original and pioneer stock regulator of America. Tested thoroughly for nearly half a century, its worth is known and recognized by stock owners the world over. Always sold on a guarantee that it will satisfy you or your money back.

25 lb. pails, \$3.40, are popular with our customers.

POULTRY MUSTARD

The experience of practical poultry raisers and the results of careful experiments conclusively demonstrate that Colburn's Poultry Mustard keeps fowls in vigorous condition, increases egg production, improves fertility and hatchability of the eggs, and does not injure the birds in any way.

DIRECTION FOR USING.—This Mustard may be fed in a dry mash or moist mash, as preferred. Give one heaping teaspoonful daily to each ten birds. This amount may be increased, especially during cold weather. Be sure to thoroughly mix the mustard with the ground grains.

Endorsed and recommended by leading poultrymen.

1½ lb. Boxes, \$60. 3 lb. Boxes, \$1.10. 5 lb. Boxes, \$1.75.

WOOD NEST EGGS

Highly enameled, unbreakable, lice-proof.

Very attractive appearance.

High Grade Tested Thermometers

The best incubator or brooder manufactured is worthless unless the thermometer used therein is accurate. Hundreds of hatches in incubators fail because of inferior thermometers, and large numbers of chickens are killed in brooders owing to defective or worthless thermometers.

The thermometers here listed are thoroughly tested before they are shipped.

Incubator Thermometer, each	.50
Brooder Thermometer, each	.50

Incubator Hygrometer

These Hygrometers should be used by every one who runs an incubator. They regulate the moisture as accurately as the heat which overcomes the trouble so many people have of chicks "dead in the shell."

THE NORWICH AUTOMATIC AIR-LOCK FOUNTAIN

SANITARY NON-FREEZING

One filling of the oil tank will keep the apparatus burning day and night for two weeks, and it is but necessary to trim the wick occasionally, for the blaze is so small the wick crusting is a very slight matter. To accomplish the cleaning of the wick, the base is fitted with a slide, through which it may be attended without removing the reservoir, while the regulation for a high or low flame is accomplished from the outside of the burner by means of the wheel as shown.

Made in one size only—5 gallons capacity.

Price—Complete with Burner Base\$6.00

Without Burner Base\$4.00

Chip Paper Egg Boxes

Just the thing for your family egg trade, they ship knocked down can easily be set up.

Extra heavy, 1 doz. size, 15c dozen.

Improved Champion Leg Bands Aluminum

Raised Numbers

This is a well known band, is one of the best on the market; is light and strong, being held by a double lock, is impossible to come off.

10c doz.; 25 for 20c; 50 for 30c; 100 for 50c.

Perfecto Leg Bands

Celluloid.

Red, Green,
Black, Pink,
Yellow, Lt. Blue,
Amber and Ruby

Mark each hen for her pen, so that you know where she belongs at a glance.

Mark your old hens to distinguish them from the pullets so that you can catch the right one to kill at the first grab.

Prices, Nos. 1, 2, 3, 4, 15c doz.; 25c for 25, 40c for 50, 75c for 100.

Pigeon and Chick, 10c doz., 20c for 25, 35c for 50, 50c for 100.

Sanitary Feed Troughs

Can be used for feed, wet mash or water. Barred top prevents wasting of feed and if used for water does away with the little chicks drowning. The feed saved by using this trough will more than pay for itself in a few weeks. Made of the best grade of galvanized iron in three sizes, namely:

No. 21—12 inches long each 45c
No. 22—18 inches long each 69c
No. 23—24 inches long each 98c

TOBACCO DUST

Most powerful insect and parasite Destroyer known. Guaranteed to kill insects, lice on flowers, plants, fruit trees, vegetables, human body, cats, fowls, earth worms, ants, also any house bugs or vermin. 20c per pound.

RAT CORN

Kills Rats everytime. Can't resist. Not one can escape.

Price 25c and 50c

KEN-L-RATION

KEN-L-RATION—The Dog Food Supreme. A perfect balanced ration ready to serve. Contains practically No Fat. Net weight 16 ounces. Directions for feeding: Regulate the amount to the size and condition of the animal. Price 18c.

The Bone Shape is tremendously attractive to the dogs. They will handle it exactly as a Bone, holding it between their paws, and they will gnaw at it, thus benefiting the teeth and gums, increasing the flow of saliva and aiding digestion. For these reasons it should be fed dry and unbroken. Price 18c and 35c per box.
